**RELIANCE** \$61.50

HOT-BLAST CIRCULATOR

Before you select a heating stove of any kind, from any place or at any price, may I suggest that you give my new RELIANCE Hot-Blast Circulator serious consideration? It's the "Heater King" for the modern home. It has extra large fuel capacity, perfect heating performance and is beautifully designed and finished. The outer cabinet has beautiful, easily cleaned, Walnut Porcelain Enamel finish with top, side and front openings designed to make the stove a heat radiator as well as a heat circulator. The inner heating unit is heavy cast iron with  $\frac{3}{4}$  Ceramic Linings which prolongs the heat output and lengthens the life of the stove. Fill it up with about 80 lbs. of coal and it will hold a steady even fire up to 36 hours without re-fueling. The Hot-Blast feature consumes the gases and saves fuel. Front feed door permits the use of good size chunks of wood if desired and the cast iron water pan, filled from the rear provides the proper room humidity. Heavy revolving grate with draw center. Ash pan and  $\frac{1}{2}$  inch pipe damper supplied.

### Measurements

Height, 44 1/2 In. Width, 25 In. Depth, 25 In. Inside Fire Door, 9 in. x 8 1/2 In. Ash Pit Door, 13 In. x 8 3/4 In. Grate Diameter, 18 1/2 In. Pipe Collar—7 In. Shipped Freight Prepaid. Send Stove Ration Certificate, signed on back, with your order.

No. 6K358—Each .... \$61.50

- Ceramic Lined Heat Chamber
- Cast Iron Heating Unit
- Capacity 80 lbs. Coal
- Holds Fire for 36 hrs.
- Front Feed Easy to load
- Hot Blast Control

# AMERICA'S BIGGEST BUSINESS

*By Jim Brown*

Farming is the biggest business in America and deserves the best possible equipment. Its machinery should be modern and well kept; its buildings should be in a good state of repair, well roofed and freshly painted. Its fences should be strong, tight, and intelligently placed. If farmers realized the importance of investing in this kind of help, there would be no run-down farms in America.

The farmer can only go so far with the use of his own two hands. He must have outside help. He should not be handicapped by inefficient, worn-out, equipment or buildings. He cannot plan unless he has something with which to carry out his plans. His "silent partners" are important to his yearly yield of crops and profits.

## WHY HANDICAP YOURSELF?

A farm that needs attention should be given attention at once. Needed repairs should not be delayed for delay costs more money than the repairs themselves. You pay for repairs in some cases several times over if you don't actually make them. You pay for fencing several times over if you don't have enough of it. You pay for a new roof again if your old roof leaks. The wisest economy is the economy of conservation.

## THE WAY TO ECONOMIZE

The most profitable investment you can make is in the purchase of equipment that will pay you a profit. Fencing is just as important to a farmer as a watch is to a railroad man. It enables him to plan. It enables him to follow his plan. It is the measurement of his efforts. It enables him to control the movements of his stock, the revitalizing of his soil, and the growth of his crops. It forces him to plan instead of permitting scattered and costly operations.

## NO SEASON FOR REPAIRS

Needed repairs are not seasonable. One time is just as good as another to do this work. Whether it be spring, summer, fall, or winter, the time to put up fences, or repair roofs, or paint buildings, or to acquire equipment, is when these things are needed!

If you have not the ready cash, purchase on our Time Payment Plan. If you have not the manpower, get the material anyway and you will surprise yourself at how much help you can get from yourself and others when forced to do so. If you wait, you lose. If you do it now, it will be done and you will begin to profit at once from having completed the jobs you have to do.

## NOW IS THE TIME TO BUY

A good looking and well equipped farm is an inspiration to its owner, to his neighbors, and to all who see it. A well kept farm *keeps* a farmer and his family well kept.

NOW IS THE TIME to make the repairs you will need next spring. My Fall and Winter Bargain Book is your guide to lowest prices and ~~highest~~ quality, and your assurance of prompt delivery and complete satisfaction. It includes many items which will make your farm work easier—and make the appearance of your farm a source of pride to you.

Now is the time to order the farm and home equipment you need.

*Jim Brown*

**THE BROWN FENCE & WIRE CO., CLEVELAND, OHIO**

# IT'S EASY TO ORDER from Jim Brown BY MAIL

Shopping by mail is ALWAYS the most economical way to buy. You can select what you need from Jim Brown's Catalog in your own easy chair at home—knowing that you will save money, and knowing that your Complete Satisfaction is Guaranteed.

## Save Gasoline and Tires

Buying from this catalog helps! Freight shipments are made to your nearest railroad station, and Parcel Post Orders are delivered right to your mail box.

You will find Many New Items in this Bargain Book. Some merchandise, which you ordinarily would find listed, is still not available. Remember, scarcity of such merchandise is nationwide, and your temporary "doing without" will help shorten the war and assure final Victory!

All leather shoes in this catalog, shown on Pages 51 to 57, are rationed. Send one Airplane Stamp No. 1 or Airplane Stamp No. 2 from Book 3 for each pair of shoes ordered. See Shoe Ration Notice, giving full information about Shoe Rationing, on Page 51.

## MONEY-BACK GUARANTEE

We guarantee that you will save money every time you send us an order. We guarantee that you will receive the satisfaction and service you have a right to expect from everything you buy from us. If for any reason, you are disappointed with any purchase you make from us, just write and tell us the facts. We will then give you shipping instructions for the return of the unsatisfactory article, at our expense, or we will exchange it or refund the purchase price you paid, whichever you prefer.

Jim Brown

## Give Complete Information

When ordering, write or print your name and address clearly and if shipping point is different from Post Office address, give this information. Also give complete Catalog Number, Quantity, Description of article, and Price. Do not send cash by mail unless it is registered—it's easy to get a Post Office Money Order, Express Money Order, or Bank Draft. If you have a checking account, send your personal check. You can still buy on EASY TERMS

—See Page 67.

## Freight and Postage Paid

To give you an Extra Saving! Items marked "Parcel Post" are shipped prepaid at prices shown, if your order for Parcel Post items amounts to \$2.00 or more. Items marked "Shipped by Freight" are shipped Prepaid if your order for these Freight Items amounts to \$10.00 or more. Parcel Post items cannot be included with a freight order to make up the total of \$10.00. Make your order for "Shipped by Freight" items amount to at least \$10.00 and then you can include as much or as little parcel post merchandise as you wish. We will then include Parcel Post items in your Freight Prepaid shipment, or mail them at our option.

## HOW TO TAKE CLOTHING MEASUREMENTS

Many articles of clothing require us to have chest measurement. In taking your chest measurement, measure over vest. Keep the measuring tape up under your arms and over the shoulderblade.

Inseam measurement should be taken from close up in crotch, down inseam to the length desired. In taking waist measure, remove your belt. Hold tape snugly but do not pull tightly.

If you do not know exactly the neck size of your shirt, measure your neck at the collar-band. The number of inches is the size you require, so give this measurement on your order.

## HOW TO MEASURE SHOE SIZE

Give us your regular shoe size if you know what it is. If you do not know what size you wear, and if you cannot decipher the marks on the inside of the shoes you are now wearing, send us a pencil outline of your left foot with shoe removed. Stand on a piece of plain paper, with your full weight on your left foot. Be sure to hold the pencil straight up and down, and make sure that it touches the foot all the way around when drawing outline. If the pencil point is extended too far away from your foot you will get shoes too large for you. If the pencil point is run underneath the foot, you are likely to get shoes too small for you. So, be sure to hold the pencil so that the point makes an accurate outline of the exact shape of your foot. Remove shoes when making this outline.

## IMPORTANT NOTICE TO FARMERS

If you are engaged in farming as a business, either raising crops, livestock, poultry or bees, or if you are a custom operator who uses farm supplies in performing services for farmers, when ordering any of the items listed BE SURE TO SIGN THE CERTIFICATE BELOW AND ATTACH TO YOUR ORDER.

## FENCING FOR EVERY PURPOSE IS NOW AVAILABLE!

Whatever your farming plans may be, you can now obtain fencing to meet your needs. If you intend to grow small grain or corn, hogs or beef, soybeans or vegetables, chickens or dairy cattle, or whatever else you have in mind, there's a Jim Brown fence that will fill the bill exactly!

Go through the following pages carefully. Read the descriptions of the Jim Brown fences shown. Note the sizes of wires and the spacing between wires. You'll find more fences than we've been permitted to make in many months! And every Jim Brown fence is backed by our half-century

reputation for **QUALITY**. My prices have always told the best story of the **VALUE** you get when you buy from Jim Brown.

Now is the time to buy your fencing, whether you erect it at once or later. Have it on hand for the first good break in the weather. Plan your farm, then work to your plan. Fencing is an important factor in successful farm operations. Get good fencing—use plenty of it—and make your farm pay bigger profits!

*Jim Brown*

### 7 BAR 26 INCH CLOSE SPACED HOG and SHEEP FENCE

Here's a low-cost, close-spaced fence that's easy to stretch tight, even over uneven, rolling ground. Makes a wonderful hog and sheep fence and a mighty good all around stock fence if you stretch barb over the top.

It's built from finest quality Rust-Resisting Steel Wire, heavily coated with Hi-Test Pure Zinc Galvanizing for long life. 26 inches high, line wires are 3 to 5½ inches apart as shown below, and stay wires only 6 inches apart. Top and bottom wires are 11 gauge, other wires are 14½ gauge. Sold in 20 rod rolls only. We do not cut rolls.

Cat. No. K-F726-6—7 Line Wires, 26 Inches High.  
Top and Bottom Wires 11 Gauge; other Wires 14½ Gauge.

# 8 BAR 32 INCH ECONOMY WEIGHT HOG and SHEEP FENCE

On account of the fence shortage for the last two years many farmers will need considerable amounts of fence and must make their money go as far as possible. For them, here is my Economy Weight 8 Bar 32-inch hog and sheep fence. Line wires are spaced as shown in illustration and the stay wires are 6-inches apart. The construction allows the fence to be stretched properly on rolling ground. Although it is the lightest gauge stock fence I manufacture, it will give you excellent value at the price quoted. By using two barb wires on top, this fence will also hold cattle and horses as well as the smaller stock.

Top and bottom wires are 11 gauge, and other wires are 14½ gauge; all are high-quality, rust resisting steel, protected with Hi-Test Pure Zinc Galvanizing. Sold in 20 rod rolls only. We do not cut rolls.

Cat. No. K-F832-6—8 line wires 32-inches high.  
Top and Bottom Wires, 11 Gauge; other wires 14½ Gauge. 20 Rod Roll, Only..... \$6.70

# 8 BAR 32 INCH STANDARD WEIGHT HOG and SHEEP FENCE

Many hog and sheep raisers like a fence over 30-inches high, and here it is . . . 32-inches high, line wires close-spaced clear to the top, stays only 6-inches apart! Easy to erect, because the hinge-joint construction allows the fence to follow ground contours perfectly. It's a perfect fence to hold hogs and sheep, and a good utility stock fence as well . . . two or three strands of barb makes it horse-high.

Top and bottom wires of this Hog and Sheep fence are 10 gauge and other wires are 12½ gauge; all are finest quality rust-resisting steel, protected with Hi-Test Pure Zinc Galvanizing to increase the years of service. Sold in 20 Rod Rolls Only. We do not cut rolls. Now is the time to order the fencing you'll need, to insure prompt shipment.

Cat. No. K-C832-6—8 Line Wires, 32-Inches high.

# 6 BAR 35-INCH SHEEP and CATTLE FENCE

10 GAUGE TOP AND BOTTOM WIRES. OTHER WIRES 12½ GAUGE

STAY WIRES SPACED 12 INCHES APART

I have sold millions of rods of this sturdy Hinge-Joint Fence . . . it's popular with farmers and stockmen everywhere, and one of the best farm fence bargains that I have ever offered. Order what you need now. I have a good stock on hand and although manufacturing costs are now higher, my price is still the same as of two years ago.

This Sheep and Cattle Fence is built heavy throughout for extra long service. Top and bottom wires are 10 gauge, all other wires 12½ gauge. Made in the popular Hinge-Joint Wrapped-Stay style; heavily Galvanized with Hi-Test Pure Zinc. 35 inches high, with 6 line wires spaced as shown above and stay wires 12 inches apart. Often used as a lane or a pasture fence. Sold in 20-rod rolls only. We do not cut rolls.

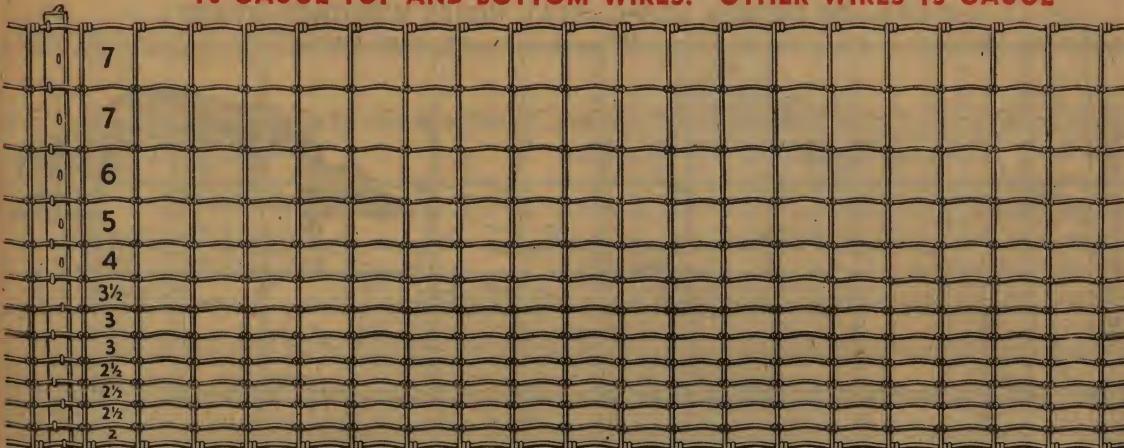

Cat. No. K-C635-12—6 Line Wires, 35 inches high. Top and Bottom Wires 10 Gauge; \$5.75  
Other Wires 12½ Gauge. 20 Rod Roll, Only.

# 13 BAR 48-INCH COMBINATION POULTRY AND STOCK FENCE

10 GAUGE TOP AND BOTTOM WIRES. OTHER WIRES 13 GAUGE

This was a very popular style of fence before the war cut off its manufacture, and it should be again. Ideal for barnyard and lane fences. Made of 10 gauge top wire, 10 Gauge bottom wire, and other wires 13 Gauge. Stay wires are spaced 6 inches apart. This fence is heavy enough to hold cattle and hogs, while the line wires are spaced close enough for poultry. You will notice that the bottom spacing is only 2 in.

The Ring Knot construction allows the fencing to be stretched properly even over rolling ground. All wires are high grade, rust-resisting steel, heavily coated with Hi-Test Pure Zinc Galvanizing. Sold in 20 rod rolls only. We do not cut rolls.

Cat. No. K-O1348—13 line wires, 48 inches high. Top Wire 10 Gauge; Bottom Wire 10 Gauge; other wires 13 gauge. 20 Rod Roll, Only.

# 9 BAR 39-INCH HOG AND STOCK FENCE

9 BAR—39 INCHES HIGH—STAY WIRES 12 INCHES APART

This husky Hinge-Joint general purpose fence should meet the requirements of thousands of stockmen. You can buy it NOW at Prices that were LOW even two years ago! Freight is Prepaid on freight orders of \$10.00 or more, to give you an extra saving.

Line wires of this fence are close-spaced at the bottom, like hog and sheep fence, but it's heavy enough and high enough to hold almost any stock. Stay wires are 12 inches apart. Hinge-Joint construction, for easy, tight stretching over hilly land. Made from first-quality steel wire, with Hi-Test Pure Zinc Galvanizing for long life. Top and Bottom wires are No. 10 gauge, all other wires No. 12½ gauge. Sold in 20 rod Rolls only. We do not cut rolls.

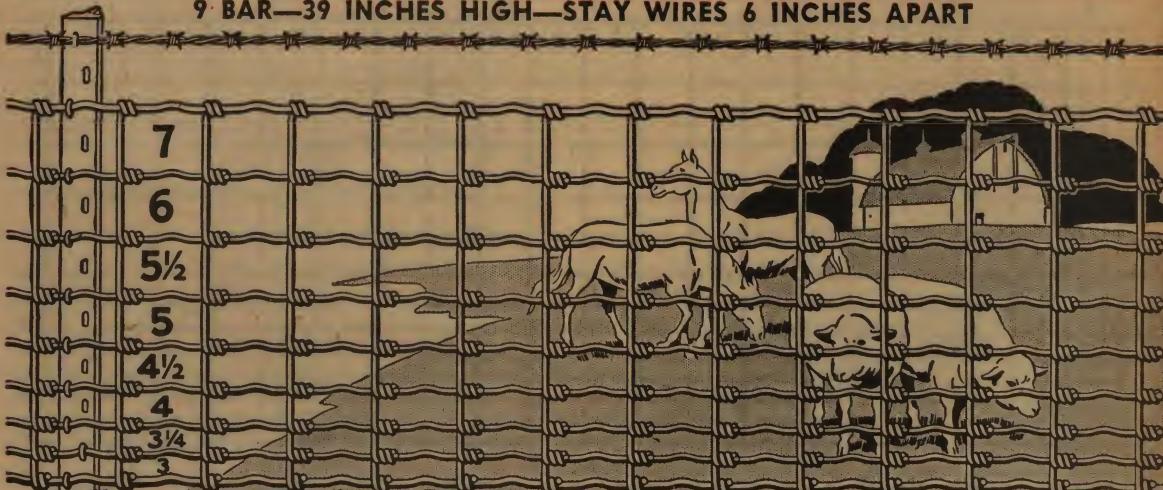

Cat. No. K-C939-12—9 Line Wires, 39 inches high. Top and Bottom Wires 10 Gauge; Other Wires, 12½ Gauge. Stay wires 12 inches apart. 20 Rod Roll, Only.....\$7.55

See Note Below

# 9 BAR 39-INCH CLOSE SPACED HOG AND STOCK FENCE

9 BAR—39 INCHES HIGH—STAY WIRES 6 INCHES APART

This fence is the same construction as the one shown above except that the stay wires are spaced only 6 inches apart. This means that it can be used for holding pigs in a satisfactory manner; it also gives you a much stiffer fence owing to the closer spaced stay wires.

Line wires are spaced as shown in illustration. Top and bottom wires are No. 10 gauge, all other wires are No. 12½ gauge. All wire is high grade, rust-resisting steel and is protected with a heavy coat of Hi-Test Pure Zinc Galvanizing. Sold in 20 rod rolls only. We do not cut rolls.

Cat. No. K-C939-6—9 line wires, 39 inches high. Top and Bottom Wires 10 Gauge; other wires 12½ Gauge. Stay wires 6 inches apart. 20 Rod Roll, Only.....\$10.05

# 10 BAR-47 INCH HOG AND STOCK FENCE

10 BAR-47 INCHES HIGH

STAY WIRES 12 INCHES APART

This 10-Bar 47-Inch High Fence can end your worries about fencing for years to come. It's built of heavy weight wire throughout and is widely used for boundary line fences and for holding cattle and horses as well as hogs and sheep. It's made in the rigid Ring-Knot Style with one-piece stay wires spaced 12 inches apart. Line wires are very close-spaced at the bottom as shown.

Built from best quality Rust-Resisting Steel, coated with Pure Zinc Galvanizing. Top and bottom wires are heavy No. 9 gauge and all other wires heavy 11 gauge. Very reasonable in cost considering its height and weight. **20 Rod Rolls Only.**—We do not cut rolls.

**Cat. No. K-1047-H—Heavy Weight.** 10 line wires, 47 inches high. Top and bottom **\$11.35**  
wires 9 gauge; other wires 11 gauge. **20 Rod Roll, Only.**.....

# 10 BAR-47 INCH CLOSE SPACED HOG AND STOCK FENCE

10 BAR-47 INCHES HIGH

STAY WIRES 6 INCHES APART

If you want an extra-strong, extra-rigid and extra-close spaced fence, high enough for all live stock, this fence will suit you 100%! It's horse-high and pig-tight. Made in the Stiff-Stay Ring-Knot style of extra-heavy wire. When this fence is stretched tightly, it's almost impossible for stock to "ride it down." Same general construction as fence above BUT stay wires are spaced only 6 inches apart . . . a feature which greatly increases its strength and service.

Made from finest quality Rust-Resisting Steel Wire, coated with Hi-Test Pure Zinc galvanizing. Top and bottom wires are No. 9 gauge; all other wires No. 11 gauge. A wonderful value at my price! **20 Rod Rolls Only.** We do not cut rolls.

**Cat. No. K-01047-H—Heavy Weight.** 10 line wires, 47 inches high. Top and bottom **\$15.50**  
wires, 9 gauge; other wires 11 gauge. **20 Rod Roll, Only.**.....

# Jim Brown's POULTRY

## Protect Your Poultry from Chicks

### 20 BAR 48 INCH CLOSE SPACED POULTRY FENCE

Many poultry raisers have been unable to keep their fencing in good shape on account of the scarcity of fence. The Government has now given me the "go ahead" signal to build the fence poultry raisers need so badly. I've a stock in my warehouse awaiting your orders, and I'm making more.

This fence is extra close-spaced. Stay wires only 6-inches apart and line wires spaced as shown on the illustration below—only 1-inch apart at the bottom. 20 line wires from top to bottom. Tight enough even for Baby Chicks! High enough for grown flocks, and made in Ring-Knot Stiff-Stay Style, so that it can be stretched properly even on rolling ground. The wires are a good, heavy weight. Top wire No. 11 gauge; Bottom wire No. 12½ gauge and other wires No. 14½ gauge; Heavily Galvanized Steel. 10 Rod Rolls Only. Send orders NOW for immediate delivery.

Cat. No. K-02048—20 Line Wires, 48 Inches High. Top Wire, 11 Ga.; Bottom Wire, 12½ Ga.; Other Wires, 14½ Ga. Stays 6 in. apart.

# STYLE "K" POULTRY AND STOCK GATES

10 Foot Gates Have 1 Brace; 12 Foot Gates Have 2 Braces.

## STYLE "K" 10 and 12 FT. DRIVE GATES

These gates match my heavyweight poultry or stock fences. Frames are made of 1 1/4-inch O.D. Seamless Steel Tubing electrically welded at the joints. The gate, including all fittings, is heavily galvanized with pure zinc. Filler wires are all No. 12 1/2 gauge stock and poultry fence, with horizontal wires extra-close spaced at the bottom and close-spaced clear to the top. Vertical wires are only 6 inches apart. 10 ft. gates have one upright brace; 12 ft. gates have 2 braces, as shown above. Furnished in 48-inch height only.

Gates are priced with wood post fittings. Add 65c per gate for steel post fittings and specify in your order the size and shape of posts to be used. Barb Wire Top for gate, \$1.50 extra. Shipped By Freight, see Notice below.

# STEEL FENCE POSTS!

## MADE FROM RAIL STEEL FOR LONG SERVICE

Posts Made of Carbon Rail  
Steel Like Railroads Use

Steel fence posts are again available in the three most popular styles, as shown at the left. They will put an end to your fence post troubles, will save you a lot of money and a lot of time. When you use steel fence posts there are no post holes to dig—you can drive a dozen steel posts in the time required to set just one old-fashioned wood post! They can't burn or rot away, and will give many years of service.

### Extra Strong—Double-Riveted Anchor Plates

You know that railroads use carbon steel in making railroad rails. Well, that's what these posts are made from, and you can't get better post material no matter what you pay. Jim Brown steel fence posts have extra strength and stiffness, without brittleness. They have heavy double-riveted anchor plates with extra large bearing surfaces to "anchor" them solidly and keep them from turning in the ground.

Angle and Tee posts are made in the punched style—oval holes are punched in the posts 2 inches apart so that any type of fence wire or netting can be fastened with ordinary staples, quickly and easily. They are heavily coated with a Red Oxide Rust-Resisting paint which keeps them in good condition for years.

My U-Flanged Posts are made Self-Fastener Style; to fasten fence wire just tap downward on the self-fastener lugs of the post. U-Flanged posts are painted with Rust-Resisting Red Oxide paint, at the factory. All posts are painted AFTER they are formed so that there are no unpainted edges. All three of these styles of fence posts are heavy and strong.

### 3 Styles—Specifications

Angle Posts measure  $1\frac{1}{4} \times 1\frac{1}{4} \times \frac{3}{8}$ -inch and they weigh about 1.12 pounds per foot.

Tee Posts are slightly larger and heavier. They measure  $1\frac{1}{2} \times 1\frac{3}{8} \times \frac{3}{8}$ -inch and they weigh about 1.25 pounds per foot. U-Flanged Posts are extra stiff because of their shape; they measure  $2 \times 1 \times \frac{1}{8}$ -inch and weigh 1.12 pounds per foot. 72, 84 and 96-inch lengths, as listed below.

You'll save time by using steel posts on your fencing job! These steel posts are **Shipped By Freight**, see Note below.

### Post Driver

Just slip the end of this Weighted post driver over top of post, then raise and lower driver with "pile driver" action. Drives any style of Jim Brown steel drive posts.

## DOUBLE JACK STRETCHER

Built for extra heavy work as well as long stretches. Easy to operate, has a pulling capacity of 20,000 pounds and is particularly suited for stretching heavyweight fences. Stretcher consists of two heavy 5 foot steel clamp bars, which bolt together with a vice-like grip that's sure to hold, two extra heavy jacks, two heel chains 4 feet long and two jack chains 8 feet long which allow for making long stretches without making two hitches. A nut wrench and wire twister for splicing is also included. Shipped by Freight, see Note below.

## BALE TIES Single Oval-Loop

Made from specially annealed steel wire with a special hard-oil finish that resists rust.

There are 500 ties packed in a bundle. The loop-end of each bundle is wrapped, and the whole length of the bundle is spirally wrapped to prevent the ties from becoming bent and tangled. The wire used for this spiral wrapping comes off in one long piece. This eliminates the danger of short pieces of wire dropping into the hay. Sold only in full size bundles of 500 ties, of same gauge and length.

Price Per Bundle of 500 Ties			
Cat. No.	Length	Gauge	Bundle
7K2111	8½ ft.	16½	\$2.62

# Jim Brown GALVANIZED NETTING

## Made in Popular Hexagon Mesh

You poultry raisers who need netting—send your orders NOW! I have a good stock on hand now of the styles listed below, and expect to be able to meet the needs of my customers.

### Hi-Test Pure Zinc Galvanizing—Smoothly Bound Edges

Jim Brown Hexagon (Diamond Mesh) Netting is the finest you can buy, made from high quality steel wire, heavily coated with Hi-Test Pure Zinc Galvanizing to fight rust and corrosion. Top and bottom edges are smoothly bound with strong twisted selvage wires. The netting is evenly woven, and tightly rolled so that it unrolls flat and can be easily erected without bulges in the fence line.

This netting is woven of 20 gauge wire and supplied only in the styles shown. 1-inch mesh in 12, 24 and 36-inch heights and 2-inch mesh in 48 and 60-inch heights. Furnished only in 150-foot rolls. I do not cut rolls. Be sure to specify the height and mesh of wire.

Shipped by Freight. See Note Below

AS LOW AS **\$213**  
150 Ft. Roll

### Netting Staples

Made of No. 14 Galvanized Wire. Staples are  $\frac{1}{4}$ -in. long. About 480 staples to the pound. Used for fastening Poultry Netting. Shipped By Freight, see Note.

No. 1K2—11c  
Per lb.

Shipped by Freight. See Note Below

### Combination Fence Pliers

A complete fence building tool. Combination Pliers, Wire Cutter, Splicer, Hammer, Staple Puller, Lifter for bent Lugs on steel posts, and short distance wire stretcher. Made of forged steel, 10 $\frac{1}{2}$  inches overall. Shipped Parcel Post. See Note below.

Cat. No. 1K52—\$1.02

### Fence Anchors

Drive these anchors between line posts. Holds fence to the ground and stops hogs from pushing under. Made of steel 16 inches long. Hook over wire and tap prong with hammer. Spur at bottom holds in ground firmly. Painted with rust-resisting paint. Shipped by Freight. See Note below.

Cat. No. 2K151—Each. 8 $\frac{1}{2}$ c

### Galvanized Tie Wire

For attaching fencing to posts. Also used for repairing broken fences where short lengths of wire are needed. Comes only in 12 inch lengths. Made of No. 12 wire, heavily galvanized with pure zinc. Wire twister is included.

Shipped Parcel Post. See Note below.

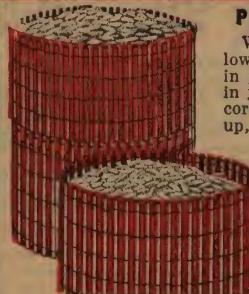

No. 1K19—Per bundle of 100 pieces. 34c

## WOOD SLAT CORN CRIBS

### Provide Extra Storage Room at Low Cost

Wood slat corn cribs provide extra storage space at lowest cost and help you keep down your investment in permanent buildings. One man can erect these cribs in just a few minutes and when you are through storing corn for the season, the crib can be taken down, rolled up, and stored away for the next season.

Each section is made of strong, durable wood slats 48 inches long, 1 $\frac{1}{2}$  inches wide by  $\frac{1}{2}$  inch thick, spaced about 2 inches apart and woven between 5 double cable 13-gauge galvanized wires. Painted red. Single-Section Cribs are 48 inches high. Double-Section Cribs are made by placing one Section above the other, making a crib 96 inches high. Shipped by Freight, see Note below.

800 Bushel \$14.71  
400 Bushel \$7.39

### Wire Tightener

Removes the slack from sagging wire by "crimping" as shown in illustration. Just open handles of Tightener, put wire between studs on the crimper head, and pull the handles together! Produces a deep "crimp" in the wire equal to removing about 1 inch from the wire line.

Sturdy steel head, with 17-inch wood handles. Shipped Parcel Post. See Note below.

No. 1K66—\$1.49  
Wire Tightener

### POST HOLE DIGGER

Handles are selected hard wood, sanded and varnished, 4 ft. long. Blades of one-piece heavy alloy steel. A very satisfactory digger in fine soil. Shipped by Freight. See Note below.

No. 1K45—Each. \$1.46

### Brace Wire

Smooth, even in temper, pliable and free from flaws. Made from rust-resisting steel coated with Hi-Test Pure Zinc Galvanizing. Gauges 9 and 11 recommended for bracing terminal posts and building grape arbors. Other gauges for repairing fences and general use. Shipped by Freight. See Note below.

### WIRE GRIP

For stretching smooth or harp wire. Tightens as it pulls. Never slips. Parcel Post. See Note below.

No. 1K71—Each. 51c

### STOP DRIFTS

### KEEP ROADS AND DRIVES OPEN

A line of Jim Brown Snow Fence placed about 50 ft. to windward of the place you want to keep clear will save you a lot of shoveling! Also makes good temporary fencing for other uses. It's made of strong, durable, selected wood laths saturated with a preservative coating of Red Oxide Paint. Each slat is approximately 1 $\frac{1}{2}$ " wide by  $\frac{1}{2}$ " thick by 48" long. Slats are spaced about 2 in. apart, woven between 5 No. 13 galvanized steel wires. Line wires tightly twisted to prevent pickets from slipping.

Shipped by Freight, see Note below.

No. 1K112—50 Foot Roll. \$7.39  
No. 1K113—100 Foot Roll. 14.71

Jim Brown's  
APPROVED

# ELECTRIC FENCERS

## DE LUXE BATTERY OPERATED

A precision built Fencer for operation by 6-volt Hot-Shot or 6-Volt Storage battery. Drain on battery is low, so operating cost is small. Efficiency is Guaranteed.

Approved by the Wisconsin Industrial Commission. Charges up to 10 miles of wire. Mechanism has only two moving parts for long life; timing mechanism wheel revolves on oil-sealed ball bearings. Breaker points of best Tungsten self-cleaning. Delivers a powerful "shock" but is absolutely harmless to animals. Filtered against radio disturbance. Efficient in all kinds of weather. Has High-Low current control for dry or moist ground, and Lightning Arrester.

Streamlined Plastic Case. Automatic Starting. Meter on front of case shows condition of fencer and battery at a glance. Signal Light flashes if short occurs in fence. Equipped with Underwriters' Approved battery cable and ground clamp. Complete instructions. Order battery and insulators separately. Postpaid, see Note below.

No. 1K1010—  
Each.....\$13.89

**\$13.89**

HOLD ALL STOCK  
IF  
PROPERLY INSTALLED  
IDEAL FOR USE AS  
TEMPORARY FENCE

## LEGAL FOR USE IN ALL STATES

ALL Jim Brown Electric Fencers Are Approved by The Wisconsin Industrial Commission and Are Legal for Use in All States.

Every Fencer I sell has been thoroughly tested, checked, and proved mechanically perfect. They are self-starting, and no adjustments are necessary. Full instructions for use are furnished.

Don't take a chance on home-made or unapproved electric fences. They are illegal in many states, may be dangerous, ineffective and costly!

## COMBINATION HI-LINE and BATTERY

Can be operated by 110-120 Volt A.C. Hi-Line Current or by 6-Volt Hot-Shot or Storage Battery. Fine construction in every respect.

Offers efficient low-cost operation, whether used on Hi-Line or Battery . . . operates 24 hours at cost of using a 60-watt lamp one hour! Handles up to 10 miles of one-wire fence. Compares with other Electric Fencers selling for much more.

Delivers an effective, sharp, safe shock. Meets Safety requirements of National Electric Safety Code and is Approved by Wisconsin Industrial Commission. Has efficient, ball-bearing Timing Mechanism. High-Low terminals for moist or dry ground gives more power and greater economy. Is filtered against Radio or Telephone interference and has a built-in Lightning Arrester. Timing mechanism turns on a Lifetime bearing. Tungsten breaker points assure positive contact; self-cleaning. Handsome Plastic Case with Signal Light and Easy-to-Read Charge Meter. Underwriters' Approved Battery Cable and Ground Clamp. Complete instructions included. Order insulators separately. Postpaid, see Note below.

ELECTRIC  
FENCER

## 6-VOLT CHARGE-RETAINING STORAGE BATTERY

### BUILT BY WILLARD

The name Willard on any battery is a guarantee of excellent workmanship. I believe this is the best and most economical battery ever built for operating electric fences.

JIM BROWN

No. 1K1014—Willard 6-Volt Battery. **\$9.95**

**\$9.95**  
Shipped  
by  
Freight

This battery is specially designed for Electric Fencers and to maintain its steady high-operating voltage over a long period of time. It retains almost a full charge after ordinary automotive types of batteries would be completely discharged and ineffective! Gives the longest service per dollar of cost.

On original charge it delivers service at least equal to the full life of a Hot-Shot Battery . . . can be recharged at least 15 times, from any 32-volt or 115-volt D.C. farm lighting circuit, or service station charger.

Best quality construction. Plates are 7 times as thick as in ordinary batteries! Has finest Port Orford Cedar separators and sturdy composition case. Large terminals for solid, permanent contact, and easy hook-up. Shipped by freight, see Note.

AUTO  
TYPE

## STORAGE BATTERY

6-VOLT

**\$6.75**  
Shipped  
by  
Freight

• Regular auto type, designed for low drain.

• For auto, or utility service as well as for electric fence.

This Jim Brown automobile type storage battery is specially built, with 39 heavy, extra-thick plates to provide extra low-drain and steady voltage. Because of this feature I recommend it in preference to ordinary auto batteries for operating any battery type electric fencer. Has 80-ampere capacity output. Gives service equal to that of Hot-Shot Batteries on one charge and can be recharged many times.

Shipped by freight, see Note below.

No. 1K1013—6-Volt Battery.....\$6.75

## CONSERVE FEED—GAIN FERTILITY

Now more than ever before, the Electric Fence is almost a necessary piece of equipment on every farm raising live stock. Farm labor is scarce and this, together with the shortage of feed, makes it necessary to do everything practical to conserve as much feed as possible. One way you can accomplish this is to turn your cattle into small grain or hay fields as soon as the crop is harvested. The amount of feed that can be saved in this way is surprising, not to mention the fertility being added to the soil.

With an Electric Fence Controller you can fence in your harvested fields quickly and easily, especially if you use steel posts. One man

can fence in a five acre field in a very short time and just think of the forage this makes available to your cattle—forage that would otherwise be lost.

Most farmers prefer woven wire for all permanent fences and this is as it should be. With a permanent fence property lines are definitely and permanently defined. Lanes, yards, corrals and other places you can think of should by all means have strong permanent fences. You will, however, find many uses for an electric fence controller and on the great majority of farms it will pay for itself and show a profit in a very short time.

**NOTE:** If the Total of SHIPPED BY FREIGHT Items Amounts to \$10.00 or More (not including any PARCEL POST items) Freight Will be Prepaid. If the Total of PARCEL POST Items Alone Amounts to \$2.00 or More Shipment Will be Prepaid.

# KEEP FENCE LINES CLEAN

With Jim Brown's Famous

# WEED-MASTER

THE ELECTRIC FENCER THAT  
KILLS WEEDS

## No Waiting—Shocks Instantly

- You Need This Trouble-Free Hi-Line Electric Fencer. **COSTS ONLY**
- Kills Weeds That Grow Into the Fence-Line.
- No Wait! The Weed-Master Shocks Instantly When Wire Is Touched, Harmless to Animals.
- Simple and Efficient . . . Not a Single Moving Part!
- Unequalled Operating Economy . . . 3 to 9¢ per Month.

**\$21.33**

The WEED-MASTER is more efficient, safer, and costs less to operate than any Electric Fencer I have ever seen! Freight Prepaid It transmits a different "shock" than other fencers, KILLS WEEDS which grow up and touch the wire. Holds stock even while temporary "shorts" from weeds are being automatically eliminated. Eliminates frequent mowing under your electric fence lines.

### Designed to Give Extra Long Service

The Weed-Master far outlasts most other fencers because there's not a single moving part to wear. Radio Type tubes give unusually long service. Comes in compact metal case, complete with fence lead wire and ground clamp. Has Winker-type signal light. Order insulators and accessories separately—see listings below. Charges up to 5 miles of wire. For 110 volt 50-60 cycle A.C. only. Approved by Wisconsin Industrial Commission.

No. 1K1005—Each. .... **\$21.33**

## ACCESSORIES FOR ALL ELECTRIC FENCERS

With Reservoir

- Heavy Cast Iron Main Front
- Enameled Reservoir—Holds 32 Qts.
- Large Full Enameled Oven

### Warming Closet or Hi-Shelf Supplied After the War

Are you hesitating about ordering your New Range NOW because you prefer one with either Warming Closet or High Shelf? If you are, there is no reason why you should wait—no reason why you cannot order your New Range Now and use it. I have made arrangements with my factories to supply, AFTER THE WAR, either Warming Closet or High Shelf, as illustrated above, for all Jim Brown Ranges not so equipped. Order your Range NOW. Buy a Warming Closet or High Shelf for it After The War.

### Stove Rationing Notice

Under ration order 9A, this Stove is rationed. You can obtain this stove by applying to your local War Ration Board for a Stove Purchase Certificate which must be signed on the back and sent to me with your order. As the available supply of stoves is limited, I can only promise that your order will be handled as quickly as possible under existing conditions.

Yes indeed—a real SENSATION here in what I believe to be the greatest combination of rugged construction, amazing beauty, outstanding efficiency and Low Price that has ever been assembled in one unit. Jim Brown's new "Beauty" is today's most outstanding Range Top. Modern balanced design with smooth surfaces everywhere. No dust-catching corners or crevices. The cabinet and inner unit are heavy welded steel protected with heat resisting porcelain enamel and the main front is heavy cast iron. Doors fit perfectly.

### Large Cooking Top—EVEN HEAT OVEN—Lots of Hot Water

Extra large, sanitary, polished Cast Iron Cooking Top has four 8-inch lids and rear French plate with cleanout lid. Never needs blackening. An occasional rub with oily cloth keeps it clean and rust free. Has sliding style damper and end feed door to refuel without removing cooking utensils. Even-Baking, FULL PORCELAIN ENAMELED OVEN has cast iron protecting strip next to firebox. Plenty of room for even, speedy, economical baking. Large 32 quart heavy enameled reservoir has large top opening, provides ample hot water at all times. Firebox has heavy 3-piece, sectional fireback and duplex grates at coal or wood. Takes 20-inch wood with end linings removed.

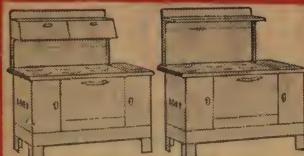

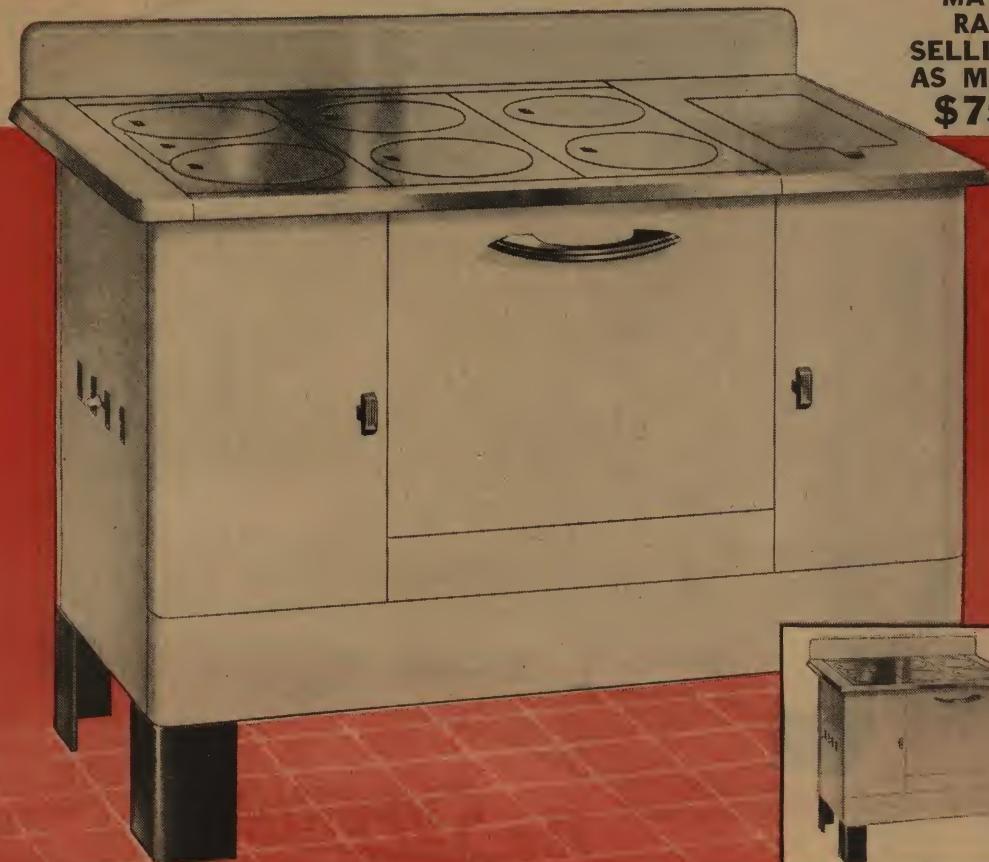

**Measurements:** Oven 18 in. x 18 in. x 12 in. Cooking Top with Reservoir 44 in. x 26 in.—without Reservoir 37 in. x 26 in. Height to Cooking Top 32½ in. Firebox for Coal 18 in. x 7 in. x 6 in. Reservoir Capacity 32 qts. Floor space required with reservoir 44 in. x 33 in., without reservoir 37 in. x 33 in. Size Pipe 7 in. Supplied with or without reservoir as priced below. Style without reservoir has six 8-inch lids in cooking top. Both styles have 4-inch enameled back guard and can be supplied with waterfall front for \$5.00 extra if specified on your order. RATIONED, send stove purchase certificate signed on back with your order. See Stove Rationing Notice at left.

# NEW SUPERLA RANGE

MATCHES  
RANGES  
SELLING FOR  
AS MUCH AS  
**\$75.00**

## Warming Closet or Hi-Shelf Supplied After the War

Are you hesitating about ordering your New Range NOW because you prefer one with either Warming Closet or High Shelf? If you are, there is no reason why you should wait—no reason why you cannot order your New Range Now and use it. I have made arrangements with my factories to supply, AFTER THE WAR, either Warming Closet or High Shelf, as illustrated above, for all Jim Brown Ranges not so equipped. Order your Range NOW. Buy a Warming Closet or High Shelf for it After The War.

## Stove Rationing Notice

Under ration order 9A, this Stove is rationed. You can obtain this stove by applying to your local War Ration Board for a Stove Purchase Certificate which must be signed on the back and sent to me with your order. As the available supply of stoves is limited, I can only promise that your order will be handled as quickly as possible under existing conditions.

**PERFECT COOKING and BAKING \$57.08**  
with  
Jim Brown's **SUPERLA** Coal or Wood Range

Prepaid

With Reservoir

- Gleaming White Enamel Finish
- Newest Balanced Design
- Cast Iron Front and Base

- Polished Cast Iron Cooking Top
- Oven and Reservoir Enameling Inside

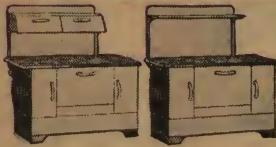

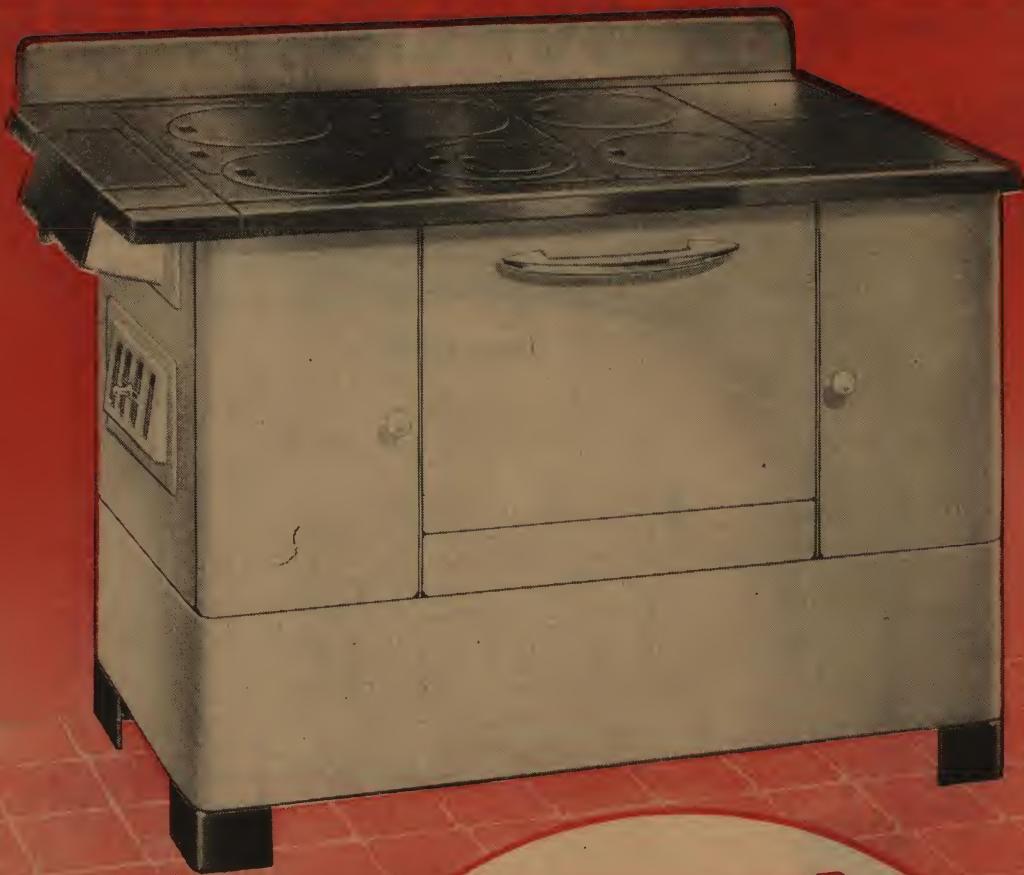

Modernize your kitchen and treat yourself to the luxury of a beautiful, efficient, modern stove of generous size for the average family at a surprisingly low price. It is almost unbelievable in these days of material scarcities that a range of this size and with so many outstanding features can be sold for the amazingly low price which I have placed on my new Superla range. It is now ready for reasonable prompt shipment too. No long waits—no serious delays.

## Cooks and Bakes with Equal Ease

The Permanently Polished Cast Iron Cooking Top has six 8-inch lids, sliding damper and pouch feed door for easy refueling. Needs no blacking—an occasional wipe with an oiled cloth keeps it rust free and shining. Roomy, even baking, one-unit Oven is enameling inside and out. Prevents rust and decay. Strongly braced. Will not Warp. Built-in 24 quart enameling Reservoir provides an ample supply of hot water. Large firebox with duplex grates for coal or wood has heavy cast front and end linings and three-piece sectional fireback. Takes 18 inch wood with end linings removed.

Measurements: Oven 16 in. x 18 in. x 11½ in. Cooking Top, with Reservoir 37½ in. x 22 in. without Reservoir 32 in. x 22 in. Height to cooking top 32 in. Firebox for Coal 16 in. x 7 in. x 6 in. For wood 18 in. x 7 in. x 6 in. Reservoir Capacity 24 qts. Floor space required with reservoir 38 in. x 28½ in. without reservoir 32½ in. x 28½ in. Size pipe 7 in. Supplied with or without reservoir as priced below. Both styles have 4 inch enameling back-guard and can be supplied with waterfront for \$5.00 extra if specified on your order. Rationed, send stove purchase certificate, signed on back, with your order. See Stove Ration Notice at left.

*The **SUPERIOR***

**INSULATED OVEN  
UNIFORM HEAT  
AND EVEN BAKING**

**\$42<sup>28</sup>**  
Prepaid  
WITH RESERVOIR

Beauty, service, economy and low price are all combined in my Superior Range to classify it as one of the most outstanding Kitchen Range Bargains in the lower price field that I have ever seen. The gleaming Full White Enameled Steel Body, the modern and popular balanced design, and the mirror polished, cast iron cooking top with enameled back guard harmonize completely with the latest trend in kitchen decoration. It is an excellent cooker and baker and you will be as well pleased with its cooking and baking efficiency as you will be with its neat appearance.

**WARP PROOF INSULATED OVEN**

The oven top is completely insulated with a thick sheet of asbestos that seals in the heat assuring more uniform baking. Above that is another sheet of high grade steel above which is a waffle top cast iron plate. The two-piece, turned steel oven bottom is reinforced with cast iron braces to prevent warping. The polished cooking top has six 8-inch lids and pouch feed. The 16 quart reservoir is enameled on the inside to prevent rusting. The cast iron fire-box is equipped with duplex grates for coal or wood and heavy, interchangeable, sectional linings. Sliding damper for easy fire control. Measurements: Cooking Top: 38 $\frac{1}{2}$  in. x 22 in. Height to cooking top 30 in. Oven: 16 in. wide, 18 in. deep, 10 in. high. Firebox: For coal 16 in. x 8 in.; for wood 18 in. x 8 in. Pipe collar 7 in. Floor space required 39 in. x 28 $\frac{1}{2}$  in. Rationed, send stove purchase certificate signed on back with your order. See stove ration notice at left.

*The PARAGON*  
**AT A Bargain PRICE**  
**A LUXURY RANGE \$33.20**  
**In The Low Price Field**

Prepaid  
with Reservoir

Here's a splendid value in a Modern Style Range of Efficient Design. The Paragon is built of strong cast iron and rust-resisting copper steel . . . you'll enjoy the convenience of its Table Top Design, will be delighted with its beautiful appearance. Notice the sparkling white enamel finish on the entire front of the range, including the doors and back guard. The rest of the range is finished in jet black which gives an appealing contrast. Most important of all, the Paragon is a Marvelous Cooker and Baker, built to give you years of service.

**FINE QUALITY CONSTRUCTION THROUGHOUT**

Body is heavy 20-gauge, rust resisting copper-bearing steel. Flues are well proportioned to insure excellent baking. Oven is made of one-piece 20-gauge steel with asbestos insulation between the double topwalls. The bottom is securely braced with cast iron channel bars to prevent warping. Oven Door is insulated with Rock Wool to conserve heat and has easily adjusted spring arrangement entirely out of the heat zone on back of range.

Cast Iron Cooking Top is jet black, has six 8-inch lids and a sliding damper. Firebox Linings are heavy cast iron; one-piece fireback and Reversible Duplex Grates for burning soft coal and wood. Ditch Ash Grates for hard coal can be supplied instead of duplex grates, at no extra cost, if specified with Order. Galvanized Reservoir holds 20 qts.

Measurements: Floor space 41 $\frac{1}{2}$  x 28 inches. Cooking top, including pouch feed and reservoir, measures 40 $\frac{1}{2}$  x 21 inches, 30-inch (table top) height. Firebox for coal is 16 $\frac{3}{4}$  x 6 $\frac{3}{4}$  x 7 $\frac{1}{4}$  inches. Firebox is 20 inches long when end linings are removed for burning wood. Oven is 17 inches wide, 18 inches deep and 10 $\frac{1}{2}$  inches high. Concealed pipe collar for 6-inch pipe.  $\frac{1}{2}$ -inch hot water coil supplied for \$3.00 extra if specified with order. Rationed, send stove purchase certificate, signed on back, with your order. See Stove Ration Notice at left.

BURN YOUR  
OWN WOOD

Save  
Money!

## Jim Brown's IVY WOOD BURNING HEATING STOVE

You can laugh at high fuel costs and cold winter weather if you own one of these Ivy wood burners. They fire up fast and throw a tremendous amount of heat, and they're priced so low you can pay for the stove in practically no time at all . . . just in price of fuel saved.

AS LOW AS

**\$14.20**

FREIGHT PREPAID

This is a first class heating stove built especially for burning long chunks of wood . . . saves work! Just throw in a few big chunks, check the drafts and you will have a fire that will hold for many hours and keep you warm and comfortable.

Low-Priced . . . But Very Well Built

Has strong steel body with cast iron top, front and bottom. Dark gray enamel trim. Swing-off top feed contains a cooking lid. Bottom is corrugated and has recessed ashpit and heavy cast iron legs. Corrugated cast iron linings, 8 inches high, are cut in three sections and ventilated to prevent warping. Feed door is 9 in. wide x 10 in. high. Both sizes have 6-inch pipe collar. Shipped Freight Prepaid. Rationed. Send Stove Purchase Certificate with your order.

## STANDARD OAK HEATER

### Burns Either Coal or Wood

If you need a coal and wood-burning heater that will stand hard firing . . . one that keeps things comfortable and heats efficiently no matter what the weather is outside, my Standard Oak Heater should suit you fine! It is made in two sizes for up to three rooms, and does a splendid heating job. As fine a heater as many that are priced \$3.00 to \$5.00 higher. Freight Prepaid, an extra saving!

### Very Rugged Construction—Built to Last Many Years

This Standard Oak Heater has heavy cast iron firepot, base and legs. Heavily constructed draw-center grate, with a shaking ring operated through door at right side of firepot. The draft in the ashpit door and check in the fuel feed door make regulating the heat easy. You can build a roaring fire that will heat up the house in a hurry, or shut the drafts and hold a low fire for many hours.

### Heats Up to Three Average-Sized Rooms!

These heaters have a copper steel combustion chamber and are finished jet black with attractive Dark Gray Enamel trim. Reversible 6 inch pipe collar and a 6 inch top lid. Heights given below are overall including top ornament. Shipped Freight Prepaid. Rationed. Send Stove Purchase Certificate with your order.

YOU CAN STILL  
*Save up to 25% on Roofing*

## GUARANTEED

By Jim Brown

Don't judge Perfection Roofing completely by my Low Price. I don't claim that it gives the same service that my Dreadnaught Roofing (shown on opposite page) does or that of my Armor Coat Roofing (shown on inside back cover) but I will say that it is ideal for use where low first cost is an important consideration and is a world beater for value. Perfection Roofing will give satisfactory service for more years than you expect at such a low price. It carries my Guarantee of Satisfaction.

See Inside Back Cover for My  
Armor-Coat Roofing

**Yes! ONLY \$1.02**  
Per Roll-108 Sq. Ft.  
FOR JIM BROWN'S FAMOUS  
**PERFECTION ROOFING**

### ROOF PROTECTION AT LOW COST

Don't put off roofing—keep your buildings in good condition!

Perfection Roofing meets the big demand for a good quality roll roofing at a low price. To equal the quality of Perfection I believe you would have to pay 25% more than my price anywhere else! The reason my prices are so low is that I buy carload after carload of Perfection each year from the most reliable and largest roofing manufacturers and I am willing to take a very small profit on each roll.

I recommend Perfection Roofing for all those roofing jobs where first cost is an important consideration. It is very satisfactory for tool sheds, outbuildings, for siding, etc. Don't judge Perfection Roofing by the low price . . . it will give you more years of service than you'd expect to get for so little money.

#### High-Grade Rag Felt Base—No Tar or Rubber

Perfection has a high-grade rag felt base, thoroughly saturated and coated with hot asphalt; talc finished on both sides. Contains no tar or rubber. Each roll contains 108 square feet and covers 100 square feet of surface; we allow 2 inches for the lap.

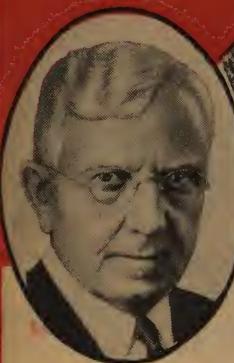

IMPORTANT: Enough  $\frac{3}{8}$  inch nails and cement for proper laying are furnished Free with each roll. To lay roofing over shingles or old roofing order special  $1\frac{1}{4}$  inch nails, and add 10c per roll extra.

# Jim Brown's DREADNAUGHT ASPHALT ROOFING MICA-GALVA FINISH

3 Weights:  
Extra Heavy  
Heavy  
Medium

AS LOW AS  
**\$1 53**  
100 Sq. Ft.  
Roll

## THE FINEST SMOOTH SURFACE ASPHALT ROOFING MADE

My Dreadnaught Roofing is all that the name implies. It is built to weather hard storms and to withstand for many years the battles waged against it by driving rain, hail, and wind, melting snow and burning sun. That's why thousands of people in all sections of the country use Jim Brown Dreadnaught Roofing. In addition to giving wonderful service Dreadnaught has a Mica-Galvo finish which makes it attractive.

Jim Brown Dreadnaught Roofing is made of the same high quality, long fibre, rag felt that is used in my famous Armor Coat Roll Roofing and Shingles. Every fibre is saturated with an asphalt saturant. Both sides are then surfaced with a heavy coating of hot waterproof asphalt which seals the asphalt saturant. This allows the roofing to remain flexible, and prevents rapid drying, cracking, blistering, and hardening.

### Approved By National Board of Fire Underwriters

If you want the best roofing value for your money use Dreadnaught. Your roofing problems will be over for years to come. No time lost—no crops or property spoiled. Suitable for new roofs as well as over old shingle or composition roofs. Each roll contains 108 sq. ft. and covers 100 sq. ft., allowing for 2 inch lap. Enough Galvanized Nails and Cement for proper laying are included in each roll. Furnished in three weights, any one of which is suitable for permanent roofs. The Heavy Weight and Extra Heavy Weight are approved by the National Board of Fire Underwriters and save you as much as 12% on insurance in most localities when used in place of wood shingles.

**IMPORTANT:**  $\frac{7}{8}$ -inch galvanized nails and cement furnished FREE with each roll. For roofing over shingles or old roofing, order  $1\frac{3}{4}$ -inch nails and add 10¢ per roll extra. Shipped By Freight, see Note Below.

## Jim Brown's BRICK EFFECT SIDING Transforms Run-Down Houses

### Modernize Your Home This Easy, Fast, Low-Cost Way—

Your investment in your home is one of the finest investments in the world—so protect it! A shabby or rundown-looking home is an eyesore and a liability, but Jim Brown's Brick Effect Siding will make it look new again at very little cost.

**\$3 69**  
Per Roll  
100 Sq. Feet

Shipped by Freight

Jim Brown Brick Effect Siding  
Transforms a Run-Down House  
... Makes it an Asset Instead of  
a Liability Almost Like Magic and  
with Very Little Effort.

### ALL THE FINE APPEARANCE OF ACTUAL BRICK

This beautiful and economical slate or ceramic surfaced asphalt roll siding duplicates the appearance of actual brick and makes it possible for you to modernize the face of any old building at extremely low cost. It comes in two colors, **Buff** and **Red**. The rolls of Brick Siding are split in the center for convenience in handling and applying. Anyone can do a good job of applying Brick Siding—it takes little longer than a paint job! Moreover, Brick Siding never needs painting but maintains its original fine appearance for many, many years without additional upkeep expense. It costs so little that it's often used on garages, barns and other buildings as well as on private homes.

### Each Roll Covers 100 Square Feet of Surface

Rolls are 32 inches wide, 41 ft. long split in center, making two 41-ft. rolls 16 inches wide with a 2 inch selvage edge. Can be used over any old siding. If the surface to be sided is rough or uneven—such as drop siding—**Rigid Backing Board**, listed below, should be used as a base and this will assure a perfect job.

**Soldier Course**, shown on the small illustration at left below, should be used as a base or starting strip—also used as a corner trim by cutting off selvage edge and bending. Comes in rolls containing 141 lineal feet. Weighs 110 pounds per roll. **Colors:** Both Siding and Soldier Course furnished in **Buff** or **Red**. Specify color wanted. Order  $\frac{1}{4}$  pound galvanized nails per roll for nailing laps and  $2\frac{1}{2}$  pounds black nails for mortar lines. Shipped by Freight. See note below.

No. 3K32—Jim Brown Brick Effect Siding, Per Roll, 100 square feet... **\$3.69**

No. 3K33—Soldier Course, Per Roll, 141 lineal feet..... **\$3.69**

No. 3K35—Weather-Resisting Backing Board. In bundles of 100 square feet, enough for One roll of Siding. We do not break bundles. **Per Bundle... \$2.69**

3K325— $1\frac{1}{2}$ -inch Black Nails, Per Lb... **15c**      3K326— $1\frac{1}{2}$ -inch Galv. Nails, Per Lb... **.12 1/2c**

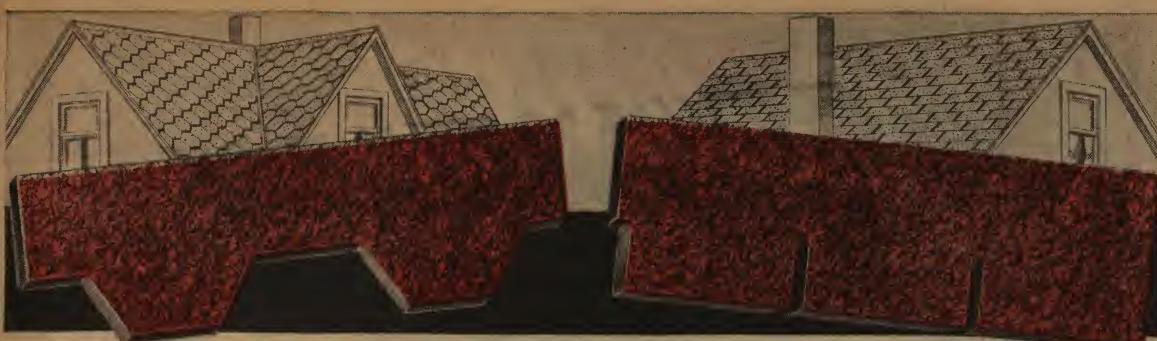

You Can Apply Brick Effect Siding Yourself. Takes No Longer Than a Paint Job. Where Applied It Ends Painting Forever!

Soldier Course Is Used for Base and Trim. Over Rough or Uneven Surfaces Backing Board 3K35 Should Be Used.

**NOTE:** If the Total of SHIPPED BY FREIGHT Items Amounts to \$10.00 or More (not including any PARCEL POST items) Freight Will be Prepaid. If the Total of PARCEL POST Items Alone Amounts to \$2.00 or More Shipment Will be Prepaid.

### 3-in-1 THICK SHINGLES

Have a felt base which is about 25% thicker than in ordinary shingles. Give greater protection, LONGER! Approved by Fire Underwriters. Weight about 215 lbs. per sq. ft. Slab is 12x36-in.; should be laid 5 inches to the weather. Use  $1\frac{1}{4}$  lbs. of  $\frac{1}{4}$ " nails per square over sheeting or  $2\frac{1}{2}$  lbs. of  $1\frac{1}{4}$ " nails per sq. over old shingles; 3 bds. cover 100 sq. ft. Colors: Red, Green, Blue-Black or Green-Blend, which is a mixture of Green and Red. State Color.

No. 3K25—Bundle, 33 $\frac{1}{2}$  Sq. Ft. .... **\$2.00**  
Shipped By Freight. See Note Below

Point-Edge roofing presents the beautiful appearance of individual shingle roofing at a fraction of the cost. Has a long fiber rag-felt base saturated with hot asphalt and surfaced with natural bright colored non-fading crushed slate or ceramic granules. It will give many years of protection as thousands of owners will testify.

Point-Edge is recommended for use only over old roofing and not over sheeting. It comes two strips in a roll and covers 100 sq. feet allowing for a two inch lap. Extra heavy—weighs 100 lbs. per roll. Colors: Red, Green, or Blue-Black. Also supplied in Color-Blend (a mixture of Red, Green, Blue-Black and Tan). If Color-Blend is wanted, add 25c per Roll. Nails are not included. Use  $1\frac{1}{2}$  lbs. of  $1\frac{1}{4}$ -in. nails per roll—see listing above. Full instructions for applying are included. State color wanted. Shipped By Freight, see Note Below

# EVERITE

75 Lb. Asphalt Roll Roofing

Everite gives you the enduring beauty and added protection of slate or ceramic surfaced roofing at very low cost. It is made with a base of long fiber rag felt, thoroughly treated and saturated, then coated with heavy asphalt—not TAR. The slate or ceramic granule surfacing is then embedded in the asphalt under pressure.

Each roll weighs 75 pounds and contains 108 square feet, covering 100 sq. ft. allowing for 2 inch laps. The water-tight lap-joint makes cementing easy and prevents leaks at joints.

Supplied with cement and  $\frac{3}{8}$ -inch roofing nails. If used over shingles be sure to specify  $1\frac{1}{4}$  inch nails and add 100 per roll. Furnished in Red, Green or Blue-Black. Specify color wanted.

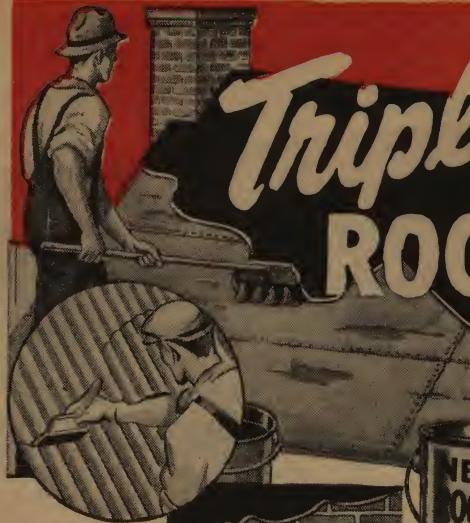

Cat. No. 3K6—Everite Roofing. Per Roll. .... **\$2.16**

# Triple Thick NEW LIFE ROOF PAINT

AS LOW AS

56c

Protects  
Metal Surfaces  
Seals  
Brick Walls  
Shipped by Freight. See Note Below

## If Your Roof Is Past Repair

Repair your old roof if you can, but if you need a new roof, buy it NOW! Jim Brown can save you money on any type of Asphalt Roofing. See Roofing pages.

We reserve the right to fill your order in whatever size or type containers are available.

## One Coat Does the Job Right!

New-Life spreads with a thick rubber-like coat which dries hard on the surface but remains flexible underneath, expanding and contracting without cracking. It will not "run" in the hottest weather and contains no lead, tar, acid or other ingredients which might taint or discolor rain water. Can be used on old, worn-out composition roofing or to preserve the life of new roofing. A perfect coating for any metal. Adheres to wood, concrete or stone. Often used on foundations.

### Not Like Ordinary Roof Paints!

Do not confuse New-Life Roof Paint with thin black paints you sometimes see. New-Life is a heavy paint and requires one coat only. Covers about 175 sq. ft. per gallon on ordinary surfaces. Furnished in Black or Red as listed at left.

## Protect Metal Surfaces

with  
*Jim Brown* SUPER GRADE  
PRESERVATIVE  
METAL PAINT

Stops Rust Before It Starts! A few dollars spent for protection NOW may save hundreds of dollars expense later on. Is especially intended for use on metal roofing and siding, gutters, down-spouts, tanks, windmills, steel fence posts, etc. Gives positive protection at low cost. Wherever "Tinner's Red" is called for this Special Paint can be used at a big saving in cost. Can be used either as a primer or as a finish coat and is especially recommended for painting new metal surfaces.

Contains no lead or tar, will not chip or crack under sudden changes in weather.

One Gallon covers about 375 sq. ft., two coats. Furnished in attractive, permanent non-fading Red color. Does not affect rain water. Easily applied with a brush or mop.

## Super Grade ASPHALT PAINT

### Furnished in Black Only

My Super-grade Black Asphalt Paint is a wonderful inexpensive "all around" liquid asphalt preservative paint, especially suited for rubber, asphalt, felt or paper roofing. Also prevents rust on metal and protects wood against rot and decay. Contains no tar or lead, and will not discolor or taint rain water.

### Very Good Coverage

Has a good "body", spreads evenly, covers about 175 sq. ft. per gallon and gives real protection where a black paint serves the purpose. We reserve the right to fill orders in whatever size or type containers are available. Shipped by Freight see Note Below.

# Jim Brown's BARN PAINT

## Protects and Preserves

Paint means a lot more than merely making your barn attractive! It is the best insurance against rot and decay. It makes your buildings look better, adding to their value, but the main job of paint is to protect and preserve the wood, adding to its life, saving money and repairs.

For this reason most people want nothing but the best. To meet that demand my Super-Grade Barn Paint was formulated. It meets every requirement of tough, durable, attractive, protective coating for your barn. It spreads easily, covers thoroughly, brushes out over a large area and dries with a good color.

I have sold my SUPER-GRADE Barn Paint to farmers in every section of the country. Many of these customers probably did not realize how good the paint was but bought it because it was low priced. Well, they know now that my SUPER-GRADE Barn Paint really lasts, really protects, and really looks fine in spite of the low price.

### LASTS LONGER

If you have a new building, start off right by giving it a coat that will properly seal the pores of the wood and give a surface which will withstand the elements for years to come. My Super-Grade Barn Paint contains quality oil and quality pigment and is mixed by men who know how to guarantee the excellent quality of Super-Grade. Covers about 350 sq. ft. 2 coat work. Is supplied in popular Red or Gray colors, both at the same price. State color. See page 31 for How to Figure the amount of Paint required. Shipped by Freight, see note below.

# Jim Brown's WHITE BARN PAINT

As Low As

**\$1 36**  
Per  
Gallon

Make a Show Place  
of Your Farm  
with All White Buildings

Nothing will add more to the fine appearance of your farm than well kept buildings. By using this high quality WHITE barn paint on all your buildings you can make a show place of your farm at a low cost.

It has all the toughness and durability of old style super quality barn paints, but is just as clean, clear, and Snow White as the finest white house paints. White Barn Paint is thick and full bodied: is made from higher quality oils than are used in most colored barn paints, and will give better protection.

### Brushes Easily—Covers Well

Weathers evenly by oxidation, so even when repainting is finally necessary the surface will be in an excellent condition for the new job. Does not scale, chip, crack or chalk. Can be thinned out with linseed oil for the first coat.

White Barn Paint covers about 250 sq. ft. per gallon, 2 coats, depending on the surface. See Page 31 for How to Figure the Amount of Paint Required. Shipped by Freight, see Note below.

# Jim Brown's 100% HOUSE PAINT

## The Best Paint You Can Buy

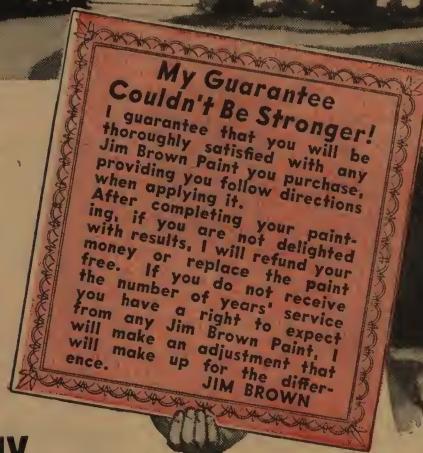

Forget the low price when you compare the Quality of my 100% House Paint. If I charged \$10.00 per gallon for my 100% House Paint, I could not improve its quality. I claim it is equal to, or better than, any other House Paint made, regardless of price. It brushes on smoothly and easily, dries to an exceptionally tough, elastic film that has a beautiful high-gloss finish. No paint made has greater coverage, more hiding power or better protective qualities. Two coats of 100% House Paint will give the greatest paint protection you can put on wood. Why ever pay more for House Paint?

### White Lead! Pure Zinc! Titanium! Pure Linseed Oil!

100% House Paint is made from Pure Lead, Pure Zinc and Pure Linseed Oil, PLUS the Wonder pigment Titanium (which greatly increases its hiding power) and the necessary amount of reinforcing pigments, thinner and dryer for lasting beauty and protection.

### EXCEPTIONAL COVERAGE

One gallon covers two coats better than 3 or 4 coats of some cheap paints and one coat completely hides most colors. It's made for those who want the best. Ask anyone, who has used it and they'll tell you there is none better. See Page 31 for How to Figure Paint Coverage. Paint brushes on page 33. For my complete line of paints, see pages 28 to 33 inclusive.

# Careless and Wasteful

# Proud and Prudent

## Does Your Home Tell the Truth About You?

It has been said that clothes do not make the man and by the same token it may be said that paint does not make the house but in both instances it's the "impression" that counts. Just as a suit of clothes becomes worn, wrinkled and unsightly through lack of proper care so do buildings, regardless of quality, deteriorate and rot from the effects of weather and moisture and create a bad impression unless they are given adequate paint protection.

You can paint out those years of wear and deterioration, transform your house and buildings from drab, dingy color to the most attractive place in the neighborhood as well as give them protection against everything the weatherman has to offer, with Jim Brown's Paint. The glistening beauty of a fresh coat of paint will create that "good impression" and will be a source of constant satisfaction to you. Let Jim Brown's Paint show you the way to New Beauty and Protection. PAINT NOW.

## VICTORY WEARBEST HOUSE PAINT Gives Lasting Beauty and Protection

Home owners in every State in the Union have used Wearbest House Paint for many years, and they say that my Wearbest Paint is the best they have ever seen at anywhere near the price. It has stood the test of time on all kinds of buildings in practically every part of the country. That is why in spite of wartime regulations on materials used in House Paint I can still make such a strong, unqualified Guarantee! (See opposite page) Wearbest is still the finest value in House Paint that I know of, except my own 100% House Paint. I know that Wearbest House Paint will give you a beautiful job, will save you money, and provide long-lasting protection.

### COSTS LESS THAN \$12.00 FOR AN AVERAGE 5-ROOM HOUSE—2 COATS!

The first brush full of Wearbest House Paint that you put on will convince you that it is FRESH paint and one of the easiest spreading paints you ever used—that it covers more surface and hides better than some paint selling elsewhere for \$1.00 more per gallon. For instance, it takes only six gallons of Wearbest to give an average size five-room house a TWO COAT job of painting, if the surface is in good condition. That is REAL economy!

Wearbest House Paint is made of Pure Lead, Pure Zinc, and other reinforced pigments, ground in pure raw Linseed Oil and mixed with other high grade oils, and the necessary amount of thinner and drier. It hides well and dries to an even glossy finish that will

give years of satisfactory service. One gallon covers about 300 sq. ft. of surface, Two coats. Shipped by Freight, see Note below. Paint brushes on Page 33.

### CHOICE OF 9 ATTRACTIVE COLORS

### How to Figure Amount of Paint You Will Need

Under average conditions, Jim Brown Paints will cover the number of square feet per gallon mentioned in each description. However, it may require from 10 to 15% more, if the surface is old and has never been painted before or if it has been painted before and the surface is in poor condition.

The number of gallons required can be figured by multiplying the distance AROUND the building by the HEIGHT. Then divide by the number of square feet ONE gallon will cover. Example: a building 30' wide x 45' long x 20' high would figure as follows:  $30 + 30 + 45 + 45 = 150' \times 20' \text{ high} = 3,000 \text{ sq. ft. of surface}$ . Divide this by number of sq. ft. of surface a gallon will cover, and your answer is the number of gallons required.

**NOTE:** If the Total of SHIPPED BY FREIGHT Items Amounts to \$10.00 or More (not including any PARCEL POST items) Freight Will Be Prepaid. If the Total of PARCEL POST Items Alone Amounts to \$2.00 or More Shipment Will be Prepaid.

## WHITE CREOSOTE PAINT

As Low As  
**\$1.80**  
Per Gallon

**Finest Protection  
for Wood Surfaces**

Jim Brown Creosote Paint offers you the unexcelled protective power of old-style, dark, grimy, creosote paints . . . **BUT** gives it to you in Spotless White and Clean, Attractive Red color. It's an ideal paint!

Jim Brown Creosote paint does not absorb moisture, does not flake, darken or streak like kalsomine. It has the durability, weather resistance, and even color of a linseed oil paint, yet costs far less. It is non-poisonous, so ideal for use on buildings where livestock is kept. It repels vermin such as lice. Provides finest protection for wood surfaces. Can be used indoors or outdoors.

On rough surfaces one gallon will cover 150 to 200 sq. ft., 1 coat; on dressed lumber 250 to 300 sq. ft. One coat is usually enough, unless the surface is very absorbent. For two coats figure 50% more. Shipped by Freight. See Note below. White or Red.

We reserve the right to fill your order in whatever sizes or types of containers are available.

## MARVEL-TONE WALL PAINT

**80c**  
Quart

One Coat  
Covers

**PAINTED WALLS  
WALL BOARD  
WALL PAPER  
PLASTER**

Marvel-Tone is the marvelous new washable finish that can be used on practically ALL interior surfaces. It is easiest of all flat wall paints to use, makes redecorating a real pleasure. Made from a combination of Soy Bean Meal, Gum Resins and Oils. No sizing or prime coats are needed, and there's no oil or turpentine to add. Comes in Paste Form and you just add water and apply. Marvel-Tone covers with one coat, even over most dark surfaces . . . it dries in less than an hour, leaves no laps or brush marks and no offensive paint odor! You can use your rooms just as soon as Marvel-Tone dries.

## Jim Brown Waterproof Spar Varnish

**ONLY**  
**82c**  
Quart

My Spar Varnish is a pale, heavy-bodied Varnish of great toughness, elasticity and durability. It is recommended for use on both exterior or interior surfaces. It is waterproof and weather-proof, retaining its luster under the most severe atmospheric conditions. Resists washing and sunlight and is particularly well adapted for use on front doors, exposed window sills, porch ceilings and porch furniture. Will not turn white when exposed to hot water. Gallon covers about 550 sq. ft. 1 coat. Shipped by Freight, see Note below.

Freight Prepaid

Jim  
Brown's  
**MARVEL**  
**Twin-Blast Oil Brooder**

For economical brooding my Marvel Brooder has no equal. It will bring your Chicks through the brooding period safely. The Twin-Blast Burner pours out heat when needed. Leaves no cold corners. Will burn very low for warm weather. Has no wicks. Drum: Heavy gauge steel, 24-inch diameter. Inner drum removable for easy cleaning. Canopy: Heavy sheet metal bolted to canopy ring leaving top exposed for better heating efficiency. Hinged canopy permits easy inspection of stove and chicks. Diameter 65 inches. Burner: Heavy cast iron, Twin-Blast type. Economical in operation. Uses Kerosene or 38-40 distillate. Regulator: Positive acting Thermostatic Control regulates flow of oil to burner. Brooder is fully equipped except for smoke pipe. Uses 5 inch pipe shown on page 36. Draft equalizer checks down or up drafts. Seven gallon galvanized steel fuel tank has Oil Filter and shut-off valve. Capacity, 1000 Day-Old Chicks.

Cat. No. 4K628—  
Freight Prepaid.

**\$19.94**

Jim  
Brown's  
**BROOD KING**  
**Oil Burning Brooder** **\$13.53**  
Freight Prepaid

Broods 600 day-old chicks efficiently—in figuring brooders needed, always allow for growth. Burns kerosene or low-cost 38/40 distillate. Burner is heavy cast iron, wickless type, which produces a clean, hot flame. Easily cleaned as flame deflector is removable.

**Automatic Heat Regulator.** Has a sight-drip feed for easy adjustment of oil flow; adjustable Thermostat Wafer automatically controls flow of oil to burner, keeps temperature even. Heavy sheet steel heater drum is 13 1/4 in. diameter, 16 in. high. Steel legs bolted to drum—overall height 22 1/2 inches. Canopy is hexagonal, 48 inches in diameter, of heavy gauge steel. Large fuel tank holds about 4 1/2 gal.; has hand shut-off valve. Draft equalizer to prevent down-draft is furnished. Uses 5-in. pipe; not included, see page 36.

JIM  
BROWN'S

## BABY CHICKS

My Super Grade Chicks listed below are Grade A Quality chicks which have given my customers very good results. Although they are low priced they should not be judged by price alone. These chicks come from quality hatcheries and are hatched from eggs produced by blood-tested and carefully culled hens.

My Triple-X Chicks are from blood-tested, carefully culled flocks headed by Cockerels whose Dams had Extra High Egg Records. The flocks are under close supervision and constantly improved to maintain and pass on a greater egg laying ability.

We ship chicks C.O.D. or on my regular time payment terms shown on page 67. I GUARANTEE 100% LIVE DELIVERY. Chicks are "As hatched." I cannot supply sexed chicks during Summer and Fall.

### Prices Shown Are for 100 Chicks

If you wish to order 25 chicks ADD two cents (2c) per chick to the 100 rate. For 50 chicks ADD one cent (1c) per chick to the 100 rate. For 500 chicks DEDUCT 1/4c per chick from the 100 rate.

Brown's

## GAS BROODER

The rated capacity of this brooder is 1,000 Day-Old Chicks. It does a fine job of brooding and broods at very low cost wherever gas rates are reasonable. Has an automatic gas valve controlled by thermostat wafer. By-pass in valve makes it impossible for flame to go out.

Canopy is 56 inches in diameter made of heavy gauge sheet metal. Heat deflector distributes heat evenly. Heavy cast iron pedestal is three-legged and provides a solid foundation for brooder to rest upon and allows all of floor space under canopy to be used.

Cat. No. 4K132—Freight Prepaid. **\$12.67**

## POULTRY HOUSE LIGHT CONTROL

Give your hens more "day-light" and increase egg production 10 to 30%. This Electric Operated Mercury Switch is Approved by Underwriters' Laboratories, sold elsewhere at Nationally Advertised Price of \$11.95.

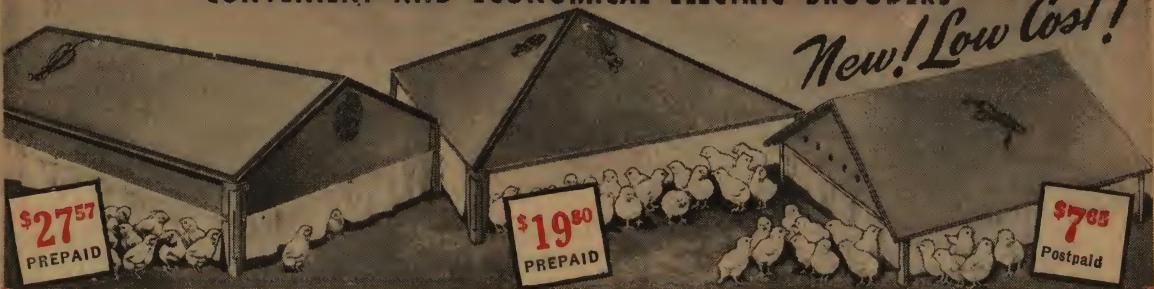

Turns lights on and off at any hour set . . . automatically dims lights for 15 minutes before turning them on or off! Accurate, Approved electric clock is self-oiling; dial is easy to read, easy to set. Can be used wherever automatic electric light switching on-and-off is desired, as well as in poultry houses. Capacity, 550 watts. For use on 110-volt 60-cycle AC. Full instructions included.

Cat. No. 4K395—Postpaid, only. **\$8.43**

# EFFICIENT-SAFE-EASY TO OPERATE

CONVENIENT AND ECONOMICAL ELECTRIC BROODERS

New! Low Cost!

## My Famous SUPER HEN Will Start Your Chicks Right!

- Designed to brood chicks successfully even in coldest weather and unheated buildings!
- Gives Chicks advantage of direct sun rays by use of genuine Chromolox medically approved heat rings. Develops your chicks fast!
- Sensitive automatic switch controls heat—uses electricity only part of the time so costs less.
- Big Brooding Capacity—700 day-old chicks.

The finest type of Electric Brooder, and most economical. Has two heating elements and two reflectors, with total heating capacity of 1000 watts. Insulated heat rings retain heat for a longer time. Reflector over the heat units radiates heat and health rays over the backs of the chicks; reflected heat penetrates air currents and maintains a dry floor under brooder. Attraction light within brooder burns continuously. Pilot light on top shows when heaters are on.

The canopy is 43x72 inches in size, built from DeLuxe Quarterboard Masonite full  $\frac{3}{4}$  inch thick and reinforced with steel strips. Pre-shrunk fabric curtains. Adjustable legs permit raising brooder for more headroom. More ventilation, lower operating cost. Equipped with eight feet of heavy rubber-covered Underwriters' Approved Cord and high-grade thermometer. Operates on 110-120 Volt A.C. No. 4K153—Super Hen Electric Brooder. Freight Prepaid..... \$27.57

## COMFY Automatic Electric Brooder

- Steel reinforced Masonite canopy, 48x48-inch size. Cloth curtains.
- Chick Capacity, 500 day-old chicks.
- Guaranteed Refractory Type heater 800 Watt Capacity; Full Automatic!

Will brood chicks at low cost even in extremely cold weather. Has a Refractory type heater guaranteed for 3 years. Conerves current and produces infra-red, health-giving rays which keep floor under entire canopy area warm and dry. 800 Watt capacity, operates on 110 to 120 volt A.C. Will not short or cause radio interference. Automatic regulator . . . turns on electricity only as needed!

Heavy steel-reinforced Masonite canopy made of quarter inch DeLuxe Quarterboard; has an aluminum coated interior which reflects and conserves heat. Equipped with pre-shrunk cloth curtains. Adjustable steel legs for regulating height. Two adjustable ventilators insure natural movement of air. Brooder is complete, ready to plug in and includes thermometer, rubber-covered drop cord and plug, and attraction light. No. 4K152—Comfy Brooder. Freight Prepaid..... \$19.80

## New CHICK SAVER Low-Cost Electric Brooder

This brooder has many features of Electric Brooders that sell for double its price. War type construction of canopy and frame saves steel for war needs and cuts cost to you! Strong and sturdy and will do an excellent job of brooding.

All essential parts of this brooder are finest quality. The large 500-watt enclosed type heater is like that used in most expensive brooders. Has a 6-foot Underwriters' Approved cord and plug. There is a light socket in the center of the heat ring so that a small attraction bulb can be used—also during very cold weather a cone type heater can be added to produce extra heat.

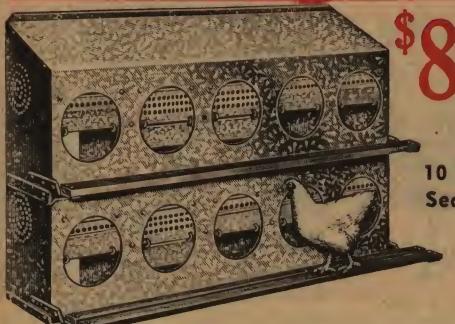

### Full Automatic Control

Has an automatic Bi-Metal type heat regulator, completely enclosed for safety. Sturdy wood legs and frame. Canopy is 40x40 inches, made of heavy 325-lb. test corrugated Kraft Stock. Separate ceiling allows for dead air space between ceiling and canopy, triple insulation!

Operates on 110-120 volt A.C. Capacity, 300 day-old chicks. Complete instructions for assembling and operating. Parcel Post Postpaid. 4K651—Chick Saver Brooder..... \$7.65

## TRAP NESTS

## Sure-Gro STARTING UNITS

10 Nest  
Section

\$8.18

## Folding Wood Perches

Made of heavy galvanized sheet metal. No place for lice or mites. Shipped knocked down.

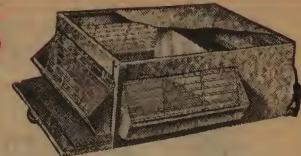

When trap doors are used it is impossible for hen to get in without tripping door. Trap doors can be locked open or removed and nest used as ordinary laying nests.

Each nest is  $1\frac{1}{2}$  inches wide by 13 in. deep. Hole is 9 inches in diameter. All partitions are perforated same as end sections which allows plenty of ventilation. Plenty of room for litter and as nests have open backs, litter may be cleaned out easily. Non-Roost sloping roof. Shipped by Freight. See Note below.

No. 4K265—10-Nest Section ..... \$8.18  
No. 4K285—Set of 5 Trap Doors..... 1.51

CAPACITY  
100 DAY-OLD  
CHICKS

\$9.85  
Each

Start Now—brood chicks at Low Cost with one of Jim Brown's Automatic Electric Starting Units. Made of heavy Galvanized sheet metal, and carries the Underwriters' Laboratories Label. Is  $2\frac{1}{4} \times 35$  in.  $9\frac{1}{2}$  in. high inside; holds 100 day-old chicks,  $\frac{1}{2}$ -inch mesh woven wire floors. Removable dropping pans. Has 2 feed troughs and 1 water trough. Brooding and exercising spaces are separated by cloth curtains.

For operation on 110-120 Volt A.C. Very economical . . . has thermostat control and uses current only part of the time. Equipped with 100-watt enclosed heating element, cord and plug. Snap Switch regulator eliminates all radio interference. Shipped by Freight, see Note below.

No. 4K154—Sure-Gro Starting Unit. Each..... \$9.85

For Electric brooders or incubators. Turns current on and off at temperature you set. Positive action and does not cause Radio Interference. Size  $2\frac{3}{4} \times 4$  in. Complete with Thermostatic Wafer and adjusting screw. For use on 110 Volt A.C. Parcel Post, see Note below.

4K450—Each..... \$1.70

A safe and efficient Electric Heater for home-made brooders. Heating element all enclosed and furnished with hangers. Size  $2\frac{1}{2}$  inches long by  $3\frac{1}{2}$  inches wide. 100 watts heating capacity for 110 Volt A.C. Parcel Post, see Note below.

4K475—Each..... \$1.31

**NOTE:** If the Total of SHIPPED BY FREIGHT Items Amounts to \$10.00 or More (not including any PARCEL POST items) Freight Will be Prepaid. If the Total of PARCEL POST Items Alone Amounts to \$2.00 or More Shipment Will be Prepaid.

# No-Waste FLOCK

# FEEDER

**\$4.02**  
With Wood Perches

With Short Steel Legs **\$3.06** Each

Stop wasting feed! These Big, Sanitary galvanized steel flock feeders are shaped to prevent birds from pecking feed out of trough, and the hinged wire guard keeps them out of the trough. Trough is built from heavy 26-gauge galvanized steel. Rust-proof wire guard is V-shaped with wires spaced  $2\frac{1}{2}$  inches apart, and is hinged to allow for easy filling and cleaning of the trough. Top width of trough is  $8\frac{1}{8}$  inches. Top opening is 7 inches and widest point is  $9\frac{1}{4}$  inches. Depth of trough  $4\frac{1}{4}$  inches. Feed capacity,  $4\frac{1}{2}$  pecks. Big Flock Feeders furnished in 2 styles—with 9-inch heavy angle steel legs as shown in smaller illustration above, or with 16-inch high angle steel stand and 1x3-inch wood perches as shown at left.

IT COSTS LITTLE TO *Beautify*

# YOUR HOME AND GROUNDS

On account of the enormous demand of last Spring, we are unable to supply fruit trees or berries for Fall planting. We will, however, have a large supply for shipment next Spring, and will show a good selection in our 1945 Spring and Summer Catalog.

## SHRUBS

**No. 12K416.** *Jan. Barberry* (*Berberis Thunbergii*): One of the most useful of all shrubs. Compact and low-growing. Handsome light green foliage in spring and summer turning yellow and red in fall, and the red berries in winter make it attractive the year around. Use for foundation, low group plantings, hedges, and around evergreen plantings for protection against dogs. Grows almost anywhere and will stand some shade. 18 to 24 in. plants.

**No. 12K410.** *Butterfly Bush* (*Summer Lilac*): A beautiful shrub with long, lilac-colored flowers. Dies down in Winter in the North but makes quick growth in Spring. Sweet Scented and very popular. Blooms all Summer. 2-year-old plants.

**No. 12K438.** *Flowering Quince* (*Firebush*): A tall, upright shrub with shining dark green foliage. Covered with crimson and rose flowers just as leaves appear. 18 to 24 in. plants.

**No. 12K411.** *Forsythia* (*Golden Bell*): Tall, upright growing. Covered with bright yellow flowers before the leaves appear in the spring. An excellent filler for massed shrub groups. 18 to 24 in. plants.

**No. 12K446.** *Hansen's Bush Cherry*: Besides being very effective in any landscape planting, this shrub also produces delicious fruit. Perfectly hardy and usually bears fruit the year after planting. 18 to 24 in. plants.

**No. 12K409.** *Hydrangea, A.G.* (*Hills of Snow*): Large billowing white flower heads. If left alone, grow tall but most people cut them back to the crown each spring which makes a round, dense bush 3 to 5 ft. Very good for foundations. 18 to 24 in. plants.

**No. 12K427.** *Hydrangea, P.G.*: Long, pointed panicles of white bloom, changing to pink and reddish bronze in fall. If left untrimmed make fine tall hedges, but if severely pruned each spring develop into dense dwarf clumps. 18 to 24 in. plants.

**No. 12K445.** *Spirea, Freeholt*: A low growing shrub reaching a height of 2 to 3 ft. Red leaves in spring turning to reddish green. Large clusters of deep pink flowers nearly all summer. 18 to 24 in. plants.

**No. 12K422.** *Spirea, V. A. Houitte* (*Bridal Wreath*): Graceful, arching branches blanketed with flowers make this a fountain of pure white bloom during the spring. Dense, dark green foliage during the summer. One of the most useful and popular shrubs. Grows to 5 or 6 ft. 18 to 24 in. plants.

## Seedling Evergreen Bargains

### EVERGREEN SEEDLING COLLECTION

These seedlings with proper care will develop into nice trees. They are 2 years old, 3 to 6 in. high. Each collection contains 10 Colo. Blue Spruce, 10 Douglas Fir, 10 Ponderosa Pine, 10 Am. Arbor Vitae and directions for planting. Cat. No. 12K579—Postpaid.

40 Evergreen Seedlings.....\$1.10

### SEEDLING DOORWAY PLANTING

A doorway planting of six evergreens. Two Pyramidal Arbor Vitae for background, two Pfitzer Junipers for intermediate and two Mugho Pines for foreground; this allows one of each for both sides of the entrance. All are strong transplanted stock 4 to 6 inches and with a little care will develop into nice specimens in a year or so.

Cat. No. 12K570—Postpaid. Doorway Planting, 6 Evergreens.....\$1.59

### FANCY EVERGREEN SEEDLINGS

Many people raise fancy evergreens as a hobby. The seedlings can be bought at a reasonable price and after a year or so you have plants that would cost considerably more. Here are some that will make nice plantings. All are strong stock and have been transplanted once or more to make good root systems. Prepaid.

No. 12K560. Pyramidal Arbor Vitae.

No. 12K561. Globe Arbor Vitae.

## SPECIAL WINDBREAK STOCK

Evergreens are becoming more popular year by year for use as windbreaks. The trees priced below are Norway Spruce, one of the best varieties for windbreaks because it is fast growing and very dense, making practically a solid barrier. The supply is limited as seed shipments were cut off by the war. Order early if you want this stock.

No. 12K540. 10 Trees 50 Trees 100 Trees  
18 to 24 in.....\$3.15 \$13.60 \$25.10

### SEEDLINGS FOR REFORESTING

If you have hilly or waste land not suited to cultivation you can add to the value of your farm by planting such land to evergreens. The seedlings listed below are hardy. Northern Grown stock 3 years old and up to 8 in. high.

Cat. No. 12K585. White Spruce

## EVERGREENS

### NORWAY SPRUCE

A tall growing, noble tree of pyramidal habit. Used extensively for "living Christmas Trees," and as it stands trimming is one of the best evergreens for hedges.

No. 12K503. 12 to 18 in.

### BLUE SPRUCE SHINERS

No. 12K526. The silvery needles are short, stiff and closely set. One of the most impressive evergreens. These shiners have been carefully selected for their distinct blue shade. 8 to 10 in.

### PFITZER'S JUNIPER

No. 12K506. Most popular low growing evergreen known. Long, whip-like branches at various angles covered with extremely dense, gray-green foliage. Fast growing and hardy. Used extensively for entrances and foregrounds. 10 to 12 in.

### IRISH JUNIPER (*Jun. Hibernica*)

No. 12K518. Has very dense, glaucous green foliage. The slender columnar growth makes it very popular for entrances and also for cemetery plantings. 9 to 12 in.

### GOLDEN ARBOR VITAE (*Biota Aurea Nana*)

No. 12K527. A beautiful dwarf evergreen. The new growth is a bright golden color which makes a good contrast with other evergreens. 8 to 10 in.

### PYRAMIDAL ARBOR VITAE

No. 12K517. Erect, pyramidal growth and dense, bright green foliage. As it can be trimmed at will, shape and height can be controlled. 10 to 12 in.

### GLOBE ARBOR VITAE

No. 12K516. Grows naturally into a dense, low, globe-shaped plant. Foliage is a rich, dark green. Very popular for foundation planting and entrances. 6 to 8 in.

### CREEPING JUNIPER (*Jun. Horizontalis*)

No. 12K511. Long trailing branches with dense, bluish-green foliage. Valuable where a low growing evergreen is needed. Fine for rockeries. 9 to 12 in.

### AUSTRIAN PINE

No. 12K533. A fast growing pine with extra long needles of dark green. Branches and needles are thick set making an extremely dense growth. Ideal for windbreaks in exposed places. 10 to 12 in.

### SHADE and ORNAMENTAL TREES

Norway  
Maple

Silver  
Maple

Mountain  
Ash

Cut-leaf  
Weeping Birch

WEEEPING WILLOW

A fine hardy tree. Dense and symmetrical. Broad leaves of deep green turning to scarlet and yellow in the fall. Makes a very satisfactory street or park tree. Prepaid Price.

No. 12K610—6 to 8 ft. \$2.49 Each; 4 for \$9.49

#### SILVER MAPLE

The fastest growing native shade tree. Used extensively for street planting or where quick shade is wanted. Prepaid Price.

No. 12K608—6 to 8 ft. \$1.25 Each; 4 for \$4.49

#### FLOWERING CRAB

Very fragrant, large pink flowers cover the tree in early spring. The red fruits in summer make it very attractive. Prepaid Price.

No. 12K617—3 to 4 ft. \$1.00 Each; 4 for \$3.49

#### CHINESE ELM

The fastest growing shade tree we have. Its dense, small foliage makes it a good shade tree and its rapid growth, extreme hardiness and ability to thrive even under adverse conditions make it invaluable for windbreaks. Prepaid.

No. 12K606—5 to 6 ft. \$1.00 Each; 4 for \$3.69

Rose Tree  
of China

Lombardy  
Poplar

#### ROSE TREE OF CHINA

One of the most beautiful and showy small trees. Grows to a height of about 8 ft. and blooms before the leaves appear in the spring. The flowers are pink and very double, resembling small roses. Very popular wherever planted.

No. 12K621—2 to 3 ft. \$1.00 Each

#### WHITE FLOWERING DOGWOOD

A symmetrical tree reaching a height of about 20 ft. Large white flowers before the leaves appear, followed by scarlet berries. Foliage a bright green changing to bronze-red in fall.

No. 12K618—3 ft. \$1.49 Each

#### PINK FLOWERING DOGWOOD

Same as the White Flowering variety but the flowers are a rosy pink color.

No. 12K619—2 ft. \$1.49 Each

#### RED BUD (CERCIS)

A low growing flat topped tree. The wide spreading branches are covered with rose-purple blossoms before the leaves appear. Grows to about 15 ft. Prepaid Price.

No. 12K616—3 ft. \$7.50 Each

# Jim Brown's MERIT CREAM SEPARATORS

## Step Up Cream Production on YOUR Farm!

- Has Fine Features of Separators that Cost up to \$25.00 more.
- Skims Down to  $\frac{1}{200}$  of 1%! No machine does better.
- Has Solid Stainless Steel Skimming Discs, easy to clean.
- Perfectly Balanced Skimming Bowl.
- Special-Cut Helical Gear run in a constant bath of oil.
- Plain and Ball Bearings are used, each where best adapted.
- Heavily Tinned 7 Gal. Tank on Turntable—Top 40 in. off floor.
- Quick-adjusting Cream Richness Control 18% to 60% butterfat.

This year—when every drop of cream is needed—it's more important than ever to have a GOOD Separator! It's certainly no time to coddle a worn-out, wasteful machine.

Laboratory tests show that Jim Brown Merit Separators skim down to  $\frac{1}{200}$  of 1% NO machine can do better. There is scarcely a trace of cream left in the skim milk when a MERIT separator does your skimming job . . . less than a tablespoonful in 100 lbs. You get all the cream, all the profit.

### Compare It with Machines Priced \$25.00 Higher!

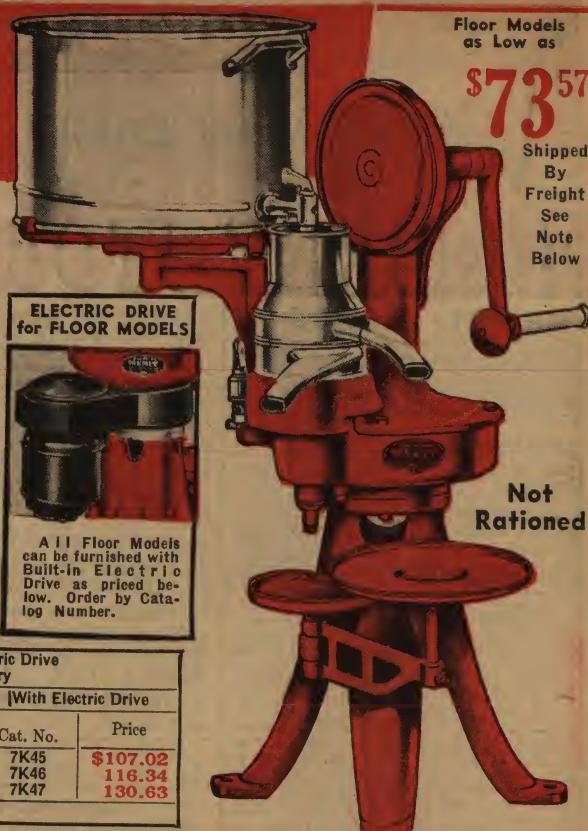

You'll find it has EVERY feature for close skimming, long life, easy operation! Solid Stainless Steel Discs always stay bright and easy to clean, wear years longer. Long-life Bearings and helical cut gears insure easy turning. The crank is conveniently low. Both spouts are adjustable to almost any position, and the cream can tray swings over 90 degrees. Has speed indicator bell, the cream can tray swings over 90 degrees. Has speed indicator bell.

All Floor Models can be furnished with a built-in Electric Drive for 110-volt 60-cycle A.C. illustrated at right. See prices below.

## MERIT Jr. BENCH TYPE SEPARATORS

### Efficient Cream Savers—For Small Herds

BOTH of these efficient Bench Model Separators skim down to  $\frac{1}{200}$  of 1% leaving less than a tablespoonful of cream in 100 lbs. of skim milk. No other separator at ANY price can skim closer, though some cost three times as much!

The 225-lb. per hour model at left is recommended for 1 to 3 cows, and the larger model is for herds of 3 to 5 cows. The supply tank on the larger model is set on a handy turntable. Both machines have a compact balanced bowl, with rustproof Aluminum skimming discs . . . easy to clean and keep clean. Both have "oil-less" bearings; you need not oil these separators, except to squirt a few drops of oil on the spindle each time before the bowl is set in place. Tank and bright parts are heavily tinned. Freight Prepaid.

NOT RATIONED. No Ration Certificate Necessary.

## Jim Brown's Humane MILKING MACHINE

Milking Unit

Vacuum Pump and Motor

These accessories included with Complete Outfit

- **Natural, Calf-like Action—Vacuum and Massage.**
- **Large, Fool-proof Pulsator—Long-lived and Efficient.**
- **Rotary Vacuum Pump—Light-running, Long-wearing Vanes.**
- **Full 1/2 H.P. Capacitor Type Motor—No Danger of Overloading.**

With the present farm labor shortage, a milking machine will mean more to you than ever before. I have been lucky enough to secure a supply of milking machines but would advise you to get your order in early while my limited supply lasts. My MERIT Milker, with its alternating suction and gentle massage simulates the action of a calf. Milks fast and safely. Pulsator is oversize and practically fool-proof. Vertical aluminum cylinder and iron piston gives perfect balance and assures long life. Regulating screw allows proper speed to be maintained regardless of weather. Vacuum Pump is rotary type equipped with ball bearings and has V-Belt drive. Exceedingly free-running and has long-life plastic vanes. Vacuum Tank is Welded steel 18" x 8", giving you over 900 cu. in. of reserve vacuum. Easily taken apart for cleaning by loosening two nuts. Motor is full 1/2 H.P. Capacitor Type with ball-bearing shaft. This extra large motor assures you of a big power reserve and steady, efficient action. Has enough power to operate three milking units. Motor is for 110 volt, 60 cycle A.C. current. We cannot supply motors for other currents. Pail is made of high grade milk-pail steel and has an extra heavy coating of pure Straits tin. Capacity 6 gallons. Teat cup shells are solid nickel-silver—no plating to wear off. Inflations of my present supply is pre-war rubber of the highest grade. Other rubber connections are synthetic rubber. Stall Cocks are made of brass and threaded for 1/2" pipe. With each unit I include an extra inflation and air tube so that you have a replacement on hand in case of accident. Price does not include pipe. Use 3/4" pipe shown on page 47. Order a 3/4" Bushing for each stall cock you will use; also a 3/4" and a 1/2" bushing for the gauge, which has 1/4" pipe threads. Complete instructions supplied with each unit.

No. 7K25—**COMPLETE OUTFIT.** Milking Unit, Motor, Vacuum Pump, Vacuum Tank, Gauge, Relief Valve, 5 Stall Cocks (enough for 10 cows), and complete set of cleaning brushes. Shipped by Freight. See Note below..... \$204.97

No. 7K26—**MILKING UNIT.** Pulsator, 6-gallon Pail, Teat Cups and Tubing. Shipped by Freight. See Note below..... \$76.40

No. 7K27—**EXTRA PAIL.** Most dairymen order an extra pail so that the full pail can be taken to the milk house while another cow is being milked. It also permits keeping accurate records for each cow. Parcel Post. See Note below..... \$8.61

No. 7K28—**STALL COCKS.** Made of brass. Threads for 1/2" pipe. Prepaid if ordered with Milking Machine..... 64c Each

No. 7K29—**PIPE CLAMPS.** For fastening 3/4" pipe to steel stalls. Prepaid if ordered with Milking Machine..... 38c Each

**NOTE:** If the Total of Shipped by Freight Items Amounts to \$10.00 or More (Not Including any Parcel Post Items) Freight will be Prepaid. If the Total of Parcel Post Items Alone Amounts to \$2.00 or More, Shipment will be Prepaid.

## SANITARY STEEL COW STALLS

Jim Brown Arch Type Cow Stalls are built from  $1\frac{1}{2}$  in. outside diameter Galvanized Steel Tubing. Arch is 70 in. high overall and 28 in. wide inside. Stall consists of arch, arch connector and one curved partition; also a clamp for fastening top of stanchion to arch, and anchor for fastening bottom of stanchion to curb. Stalls furnished in  $3\frac{1}{2}$  ft. width only.

With each row of stalls we supply a fitting, for fastening one end to wall, and one curved end section. (State whether end section will be used at right or left hand when standing at gutter and facing manger.) If neither end of stalls connects to a wall you will need an extra end section which must be ordered separately.

Price of stall does not include stanchion. Order stanchions shown below. Shipped by freight. See Note below.

No. 7K555—Galvanized Steel Stall Without Stanchion.....	<b>\$5.75</b>	No. 7K556—Extra End Section. Needed when neither end of stall row joins wall....	<b>\$2.76</b>

## WOOD LINED STEEL STANCHIONS

ONLY  
**\$3.03**  
Each

In Lots of  
6 or More

### ALL BEST FEATURES

Inside height of stanchions 42 inches. Width adjustments  $6\frac{1}{2}$  and  $7\frac{1}{4}$  inches. Top opening is 17 inches. Stanchion can be quickly and easily opened or closed with one hand . . . the strong metal latch is cow-proof. Metal fitting on hinged arm of stanchion engages the stall upright and prevents stanchion from swinging sideways when open. Strong chain hangers at top and bottom as illustrated. Save at my low price!

No. 7K511—Shipped by Freight, see Note below. Each **\$3.16**  
6 or more Stanchions. Each..... **\$3.03**

### Adjustable

- Provide Real Cow Comfort.
- Increase Milk Flow.
- Very Strong Construction for Long Service.
- Positive Cow-Proof Lock.
- Rigid Steel Side Rails with Oiled and Seasoned Select Hardwood Lining.
- 2 Width Adjustments.
- Top Opening, 17 Inches.

These are strong, serviceable stanchions, designed to hold cows securely in the stall, yet provide freedom of movement which is essential to cow comfort and maximum milk production. Durable finish. They fit any steel or wood stalls from 51 to 55 inches in height where chain hangers can be used.

Made of heavy galvanized steel, rigidly braced. Cannot warp, rot, or accumulate moisture to cause feed to sour. Feed Hopper has sloping sides—wider at bottom. Handles most all ground feeds without bridging, wedging or clogging. Adjustable throat controls flow of all grains into feed trough. Double Trough with raised "V" center; hogs eat from both sides. There are 8 Feed Doors with Self-closing lids to protect feed from weather and other livestock. Hogs lift lid with snout and eat. Hinged roof on hopper has hasp for lock. Special hinge lets roof drop clear to one side for easy filling. Separate compartment for supplement or mineral. Length of feeder, 4 ft. Width at trough edge 42 inches. Width of Hopper-bottom 24 in.; top 21 in.; height overall 41 in. Cat. No. 7K1531—Freight Prepaid

**\$29.91**

## HEATED FOUNTAIN

### Twin Cups Two Lamp Heaters

Holds  
78  
Gals.

Galvanized steel tank and drum. Double wall and two lamp heaters keep water from freezing in zero weather. Heated air circulates between drums. The  $1\frac{1}{2}$ -inch clearance keeps water cool in summer, inner tank bolted to trough. Outer can is easily removed for filling water tank.

Automatic Float Valve maintains even water level in drinking cups. Screen protects valve parts. Adjustable float controls water level. Cups are 6-in. deep and  $11\frac{1}{2}$ -in. from ground. Hinged lids retain heat. Removable clean-out pans in cups. Lamps burn 30 hours on one filling! Overall height 44 inches. Diameter 30 inches. Capacity 78 gallons.

No. 7K1509—Hog Fountain. Prepaid..... **\$28.49**

### POULTRY MINERAL

To be mixed with your regular feeds.

100 lb. Bags, Only.....

Minerals build the bone, provide a good skeleton for the meat and provide the necessary material for greater egg production. Aid in the digestion of other foods and in building up resistance against disease. Shipped by Freight, see Note below.

No. 21K3—100 lb. Bag. Each.... \$ 3.36  
Price for Five 15.80

### MINERALIZED YEAST

A combination of the best minerals with sufficient yeast added to ferment your feeds. 100 lbs. contain 20 lbs. yeast. Three pounds of "Kako" Super Yeast Mineral added to 100 lbs. of Oats, Mill-Feed or any other ground feed will ferment it in 12 hours ready to feed. Also made to give results as a straight Mineral Mixture. Contains Nicotinic Acid which helps to control Necro.

Necro hogs require soft feed and a yeast mixture containing Nicotinic Acid has been found to control Necro and enables you to get your hogs to market earlier! Shipped by Freight, see Note below.

### (PHENOTHIAZINE)

Here's a Worm Remedy that really cleans house. Recommended for removal of worms in hogs, sheep and poultry by U.S. Department of Agriculture. Tasteless, odorless, no catching, no fasting, no handling, no serious after effects. 1 lb. will treat 50 pigs weighing from 20 to 50 lbs., 30 lambs, 15 sheep, 800 head of poultry or 400 turkeys. Mass treatment of sheep on pasture by means of a mixture of one part Pre-No and 15 parts salt on the basis of  $\frac{1}{2}$  oz. Pre-No per lamb per month has been found to be practical and effective. See your veterinarian before using for horses. Full directions supplied.

# Jim Brown's New Improved HOG OR DAIRY MINERAL MIXTURES

NOW Contain Fleischman's Irradiated Yeast

### To Be Used as a Mixture with Your Regular Feed

Uncle Sam is calling for faster hog growth and greater milk production and Jim Brown's Kako Hog or Dairy Complex Mineral Mixtures contain the vital minerals necessary to fast Hog Growth and greater milk flow. My New Kako Hog and Dairy Minerals now contain Irradiated Yeast (not brewers' yeast) for Vitamin D.

### HOG MINERAL MIXTURE

Finish your hogs earlier—get them to market sooner and with less cost by supplementing your feed with Jim Brown "Kako" mineral mixture. It balances the feed, builds bone and flesh, giving you a greater gain with less feed. Helps produce larger litters of good, strong, sturdy, healthy pigs that will pay you back many times the cost. This mixture contains the proper proportions of Irradiated Yeast, Carbohydrates, Protein, Fats, Phosphorus and Calcium substances necessary to supply the body requirements for proper nutrition and growth. Shipped by Freight, see Note below.

No. 21K11—100 lb. Bag. Each.... \$ 3.50  
Price for Five 100 lb. Bags..... 16.50

### DAIRY MINERAL MIXTURE

No animal on the farm needs Mineral so much as the Dairy Cow. The Mineral Drain, especially Lime and Phosphorus, on the Dairy Cow is most terrific. Jim Brown's "Kako" Dairy Mineral provides the necessary elements of not only Lime and Phosphorus but also Irradiated Yeast, Iron, Potash, Sulphur, Magnesium, Chloride, Sodium, etc. Practically all grains and pastures are low in Minerals and my "Kako" Dairy Complex Mineral Mixture will supply the necessary elements for development and production. Also a good mineral supplement for Sheep, Goats and Horses. Shipped by Freight, see Note below.

100 lb. Bag. Each..... \$ 4.10  
Price for Five—100 lb. Bags..... 19.50

### Jim Brown's New

American Three Stars  
Mineral Mixtures  
For Hogs, Sheep, Lambs, Goats.  
Contains Phenothiazine  
The Magic Worm Remedy

Phenothiazine is recognized by the Department of Agriculture as being capable of removing more different types of parasites from Hogs, Sheep, Lambs and Goats than any other known de-wormer. It is recognized by all Experiment Stations and Veterinarians for it has proved to be the best of all worm remedies.

I believe this New, American Three Stars Worm Control containing Phenothiazine is worth more to farmers and feeders than any other mineral mixture ever made. It controls round and nodular worms—the worms that stop growth and cause the heaviest loss in hog raising. Phenothiazine will worm Hogs, Sheep, Lambs and Goats—there is no question about that and Jim Brown's American Three Stars Mixture containing Phenothiazine will control these worms if fed as directed and at the same time furnish your stock with as good a mineral mixture as money can buy. Shipped by Freight. See Note below.

**COMPLETE STOCKS for PROMPT SHIPMENT**

Protect your Crops and Valuable Farm Machinery with these Waterproofed Canvas Covers! They are made in sizes for use on trucks, farm machinery, hay stacks, building materials, trailers . . . provide protection for almost anything which must be protected from the weather. Exceptionally Low Prices.

Made of strong, long fibre cotton duck, waterproofed with a treatment containing no paraffine. Seams are double sewed with heavy rot-proof thread and reinforced with large patches at corners. Double canvas around all rings. Rolled-in rust-proof rings inserted about 5 feet apart all around. The ropes included. Weight of goods per square yard before waterproofing in compliance with commercial standard CS-28-32 U. S. Department of Commerce. Sizes listed are cut sizes—finished dimensions will be from 4 to 6 inches less because of seams and hems.

**Jim Brown STEEL WHEELS**

Jim Brown Made-to-Measure Wheels have heavy oval staggered spokes hot-forged into tire with large head upset on hub end. Hubs are made of special analysis grey iron which is cast solid around the headed spokes, thus forming an integral part of the wheel with a wall of metal between the spoke heads and the bearing surface. The hubs have full length bearing. Spokes cannot loosen in hub and grease cannot leak out around the spokes. Tires are 4 inches wide and  $\frac{3}{8}$  inch thick, are electrically butt welded and have deep grooves which afford ample protection to spoke heads from actual road contact. Can be supplied with hubs to fit skeins measuring up to  $3\frac{1}{2}$  x 11 inches and only in the heights as listed below. See How To Order at right below.

Due to War conditions Made-to-Measure and Ready Made Steel Wheels can be supplied only in the styles and sizes listed.

**MADE TO MEASURE STEEL WHEELS**  
Shipped by Freight. See Note below.

Cat. No.	Height	Price Each

$3\frac{1}{4}$ " x 10" in. Skeins  
To Fit Single Wheels  
Listed at Left

$3\frac{1}{4}$ " x 10" wagon skeins to fit single wheels listed at left. State whether left or right is wanted when ordering less than full set.  
**7K326—Each. \$1.43**

**HOW TO ORDER  
MADE-TO-MEASURE WHEELS**

We must have exact measurements of your old skeins at points indicated in diagram. Use caliper or cut cardboard to fit each skein dimension. Always measure crosswise and not from top to bottom since old skeins are usually worn on underside. Always take diameter measurements from your skeins and not from your wheel hub. Give exact sizes; we allow for play.

Measure (1) Length of spindle; (2) diameter collar next to spindle; (3) largest diameter spindle; (4) smallest diameter spindle; (5) largest diameter nut. Allow from 3 to 4 weeks for shipment.

**NOTE:** If the Total of SHIPPED BY FREIGHT Items Amounts to \$10.00 or More (not including any PARCEL POST Items) Freight Will be Prepaid. If the Total of PARCEL POST Items Alone Amounts to \$2.00 or More Shipment Will be Prepaid.

## RED CANVAS or NEW SYNTHETIC RUBBER BELTS

32-Oz. 4 Ply Red Canvas or Black Rubber—Endless or by the Foot

### RED CANVAS ENDLESS BELTS

Red Canvas belts have proven to be the most popular belt with the American Farmer and you will find that Jim Brown 4-ply 32 oz. Red Canvas belts will stand up better and last longer under hard service. They grip the pulley across the entire surface and remain soft and pliable under all conditions.

They are Pre-Stretched, have interlocked stitching and double-stitched REINFORCED SPLICE and double-stitched edges. No ply separation, No internal friction. A remarkably better belt for dependable service all the time and for most Farm Power operations. In accordance with standard practice, endless belts are 3 ft. short of size stated as it takes 3 ft. to make the lap. Length Shown in Price Table is for Circumference of belt. Securely packed in heavy cartons to reach you in the best of condition. Shipped by Freight, see NOTE Below.

### BLACK RUBBER ENDLESS BELTS

My New Synthetic Rubber Endless Belts are quality construction in every respect. They will withstand the most severe climatic conditions without deteriorating. Due to the nature of the synthetic rubber used, plus the skin coating of crude rubber between the plies, these belts give greater resistance to abrasion than equal strength belts made of natural crude rubber.

The high grade friction surface has a tremendous gripping power which reduces "slipping" to a minimum. They fit the pulleys perfectly . . . and are practically stretchless! Ideal for use on pumps, grinders, threshers, etc. Due to splice, Endless Belts are about 3 feet shorter than size shown. Length shown in price table is for circumference of belt. Securely packed to reach you in best of condition. Shipped by Freight, see NOTE below.

### RED CANVAS BELTING BY THE FOOT

Jim Brown 32 oz. Red Stitched Canvas Belting by the foot. Made of same high quality duck and by the same process as Jim Brown Endless Belts. For tractors, threshers, etc., but not recommended for hammer mills. Parcel Post, see Note below.

**NOTE:** Small lengths of belting will be spliced endless with flexible steel lacing at no extra charge, if requested. Order exact length wanted.

I cannot supply Special Lengths of belting to be spliced endless with a factory sewed splice.

### BLACK RUBBER BELTING BY THE FOOT

32 oz. 4-ply Black Synthetic Rubber Belting by the foot is recommended for heavy duty on main drives or lighter agricultural transmissions. Not recommended for hammer mills. Parcel Post, see Note below.

**NOTE:** Small lengths of belting will be spliced endless with flexible steel lacing at no extra charge, if requested. Order exact length wanted.

I cannot supply Special Lengths of belting to be spliced endless with a factory sewed splice.

How to Measure Belting by the Foot. Measure around both pulleys and order this exact length. Distance between pulleys will be about one-half the length of belt.

### 34-Oz. Black Canvas Hammermill Belts

Extra heavy 34-ounce, 4-ply Black Endless Belts especially designed and constructed for Hammer Mills and on small pulleys. Plies will not separate when used at high speeds. Meets the needs of high speed service on the farm. Belts are 3 feet shorter than listed because of lap necessary for splice. Length Shown is for Circumference of Belt. Shipped Freight Prepaid. See NOTE below.

Cat. No.	Width Inches	Length Feet	Price Each Prepaid

7K879	7	75	42.64

**NOTE:** If the Total of Shipped by Freight items amounts to \$10.00 or more (not including any Parcel Post items) Freight will be prepaid. If the Total of Parcel Post items alone amounts to \$2.00 or more, shipment will be prepaid.

# STEEL PIPE BLACK OR GALVANIZED

## Meets All U. S. Government Specifications

Standard Steel Pipe, every length perfect! Tested to 1000 lbs. per sq. in. water pressure as against 750 lbs. standard in most mills. Black pipe is just as it comes from the mill. Galvanized pipe is coated inside and outside with a heavy layer of zinc spelter put on by the hot-dip process. Galvanized pipe is recommended for drinking water, supply and waste pipes, etc.

### SHIPPED BY FREIGHT, SEE NOTE BELOW

Inside Diam.	BLACK			GALVANIZED			Extra Threads Each
	Ct.No.	Per Ft.	100 Ft.	Ct.No.	Per Ft.	100 Ft.	
1/2 In.	8K101	5 1/2c	\$ 5.13	8K111	7c	\$ 6.68	5c

## Heavy Duty FARM PUMPS

Pumps have heavy Cast Iron bodies. Pumps of COMPLETE PUMPS INCLUDE: Pump, Cylinder, 3/8-inch Galvanized Rod, Couplings, and enough 1 1/4-inch Galvanized Pipe to reach within two feet of the bottom of well. Cylinder is 4 feet deep. For wells over 25 feet deep, enough rod will be furnished to place cylinder within 2 feet of bottom of well. State TOTAL DEPTH of well, from top of platform to bottom of well. If your well is a special depth not listed in the tables below, use next deeper price.

\* Where no well depth is given, price is for Pump, Cylinder, and sufficient Pipe and Rod to extend cylinder bottom 4 feet below base of pump.

### Heavy Duty Lift Pump

Will draw water up and discharge it out of the spout, but will not force to distant point. Ideal for ordinary wells.

Has a solid one-piece cast iron body, strong brace, and bolt holes in base. Has 6-in. stroke, anti-freeze hole, adjustable handle, 3x10-in. cylinder for use in Casings 4 1/4 inch inside diameter, or larger. Shipped by Freight, See Note Below.

### Heavy Duty Force Pump

Hand or Windmill single-acting force pump. 6-in. stroke. Tapped in back for 1 1/4" pipe. Pump comes complete with cock-spout, connector for sliding hose on, and 3" x 10" brass-lined cylinder for 4" casing. Shipped by Freight, See Note Below.

# KEEP YOUR CAR ROLLING NOW and AFTER THE WAR ON Jim Brown's "WEARBEST" SYNTHETIC RUBBER TIRES

**4-PLY  
GRADE 1  
TIRES**

**"B" and "C" Card Holders  
Now Eligible for**

**JIM  
BROWN'S WEARBEST  
Synthetic Rubber Tires**

The use of Synthetic Rubber for the manufacture of Automobile Tires is no longer an experiment. They have been developed and perfected to such an extent that their long-wearing qualities are now fully recognized.

If you need Tires, and hold a Type B or C Ration Card, they are available to you NOW. See your Ration Board.

One of America's leading tire factories build these tires from the same tough, long-wearing synthetic rubber that our military forces have had available for many months. Military Tires have to be TOUGH and they have to be GOOD, and you can be sure that these Wearbest Synthetics are equal to any 4-Ply synthetic rubber tire built! They will keep your car rolling for a long time if given every possible care.

They have the same famous Wearbest Safety Tread and carcass construction as my Pre-War Wearbest Tires—four tough plies of First Quality Cord Fabric, Extra Wide Breaker Strip, and Safety Steel Wire Beads.

Do your part to make your tires last longer. Live up to Government regulations—don't exceed 35 miles per hour. Keep your tires well inflated. See that your wheels are in line. Don't start or stop suddenly. Slow down for sharp corners. Avoid hitting holes in the road or bruising your tires on curbs or stones.

**3 MOST POPULAR SIZES**

Now available to fit Fords, Chevrolets, Plymouths, Dodges, and other cars with 16 and 17-inch rims. Sizes listed below.

## SHOE RATION NOTICE

Read Carefully Before Mailing Your Order

At present, all shoes shown in this catalog, except No. 18K42 shown on Page 57, are rationed, but shoes can still be purchased from Jim Brown at my former low prices . . . simply by sending either "Airplane" Ration Stamp No. 1 or Airplane Stamp No. 2 in Ration Book No. 3. Send one stamp for each pair of shoes ordered. Be sure to send "Airplane" stamp No. 1 or No. 2 as other No. 1 or No. 2 stamps are not valid for shoe purchases, also stamp No. 18 in Ration Book No. 1 is no longer valid.

### DON'T SEND YOUR RATION BOOK

Under a special ruling for mail orders, you can detach these War Ration Stamps and pin them to your order—one stamp for each pair of shoes ordered. Stamps are transferable between all members of the same household and may be used until further notice. Watch the papers for announcement of the expiration date of Airplane Stamp No. 1. If you do not have these stamps, or if you have already used them and need more shoes, apply to your Local Rationing Board for a shoe purchase certificate for the shoes required. It's easy to buy Rationed shoes from Jim Brown's Catalog.

If we cannot fill your order your money will be returned to you, together with a special Shoe Ration Stamp which entitles you to purchase shoes anywhere you wish.

Ration FREE Footwear.

Save your Ration Stamps by ordering my non-rationed work and utility shoe shown on Page 57. Also all rubber footwear on Page 58 is not rationed.

**TRIPLE  
THICK  
SOLES**

You'll marvel at the extra heavy, triple-thick sole construction of these fine shoes.

**CAP  
TOE**

Full length vamp with cap toe gives two full layers of leather for greater protection.

## EXTRA RUGGED QUALITY THROUGHOUT

These super-quality work shoes and 8-inch Hi-Cuts are made from selected hides where the fiber is tough-grained and super-tanned to resist barnyard acids and repel water which dries out and destroys leather. Notice how powerfully they are built with reinforcements at every strain point.

Rich Army Tan Grain Leather uppers match the style worn by the Army. Genuine Goodyear Welt. Smooth leather quarter and vamp lining. Nothing to wrinkle and irritate the feet. Grain leather insole. Steel arch-supporting shank. Double Oak Leather full length Mid Sole and best quality, long-wearing, non-skid Cord outsole. Rubber Heel. See Additional features at right. Wide Width. - Plain Toe Blucher Style.
- Army Tan Grain Leather Uppers.
- Extra Wide Backstays Don't Work Loose.
- Reinforced Shanks That Stand Up.
- Triple Stitched, Twill Lined Vamps.
- Selected, One-Piece Leather Insole.

Two very fine values at these special low prices. Same quality, special selected Army Tan, cowhide leather uppers as used on the shoes described above. Just as acid and water resisting as leather can be. Plain toe, blucher style in wide, roomy last. Wide leather back-stays for extra comfort. Smooth leather counter pocket and strong rigid counters that will not break down. Twill vamp lining.

Extra smooth, one-piece grain leather insole and reinforced shank. First quality, non-skid Cord outsole. Full length, around the heel, one-piece oak leather mid-sole. Nailed and sewed construction. 13-nail rubber heel. Wide width. Men's Sizes: 6, 6½, 7, 7½, 8, 8½, 9, 9½, 10, 10½, 11 and 12. State Size. See How to Measure, page 2. Rationed, see Note below. #### REGULATION ARMY TAN LEATHER

If you want something SPECIAL in the way of Supreme Service in a Heavy Duty Work Shoe, then I know you will surely get it in this Army Tan shoe. Uppers are made from tough, pliable, acid-resisting Re-Tan Cowhide Leather. Triple sole construction for longer mileage consists of two heavy, full length Goodyear Cord outsoles that wear twice as long as ordinary soles.

Genuine Goodyear Welt construction with full leather mid-sole and smooth grain leather insole. No irritating nails, seams or stitching. Leather lined counter pocket and rigid heel counter. Drill lined vamp. Cord heel, Munson last. Wide width. Men's Sizes: 6, 6½, 7, 7½, 8, 8½, 9, 9½, 10, 10½, 11 and 12. See How to Measure, Page 2. Rationed, see Notice below. Attach Ration Stamp to Your Order.

#### EXTRA WIDE WIDTH—SOFT AS A GLOVE

Here is the Shoe you've been waiting for because it has all the extra features that will satisfy the man who has difficulty in securing a quality Work Shoe that can be worn with ease and comfort. Extra wide EE and EEE widths. Soft Elk-Tanned uppers are easy on the feet. First-quality grain leather insoles, leather inside arch support, drill lined vamps, smooth leather counter pocket and solid leather mid-sole from toe to heel. Sure-footed Raw Cord outsole and heel, riveted shank plus Genuine Goodyear Welt construction for smooth comfort and long wear. Black Leather only. Men's Sizes: 6, 6½, 7, 7½, 8, 8½, 9, 9½, 10, 10½, 11 and 12. State size and width. Rationed, see Notice below. Attach Ration Stamp to Your Order.

No. 18K709—Black. Pair, Postpaid.....\$4.50

#### FINEST GRAIN LEATHER UPPERS

Super-Tanned Grain Leather uppers, soft and pliable and resists those rotting barnyard acids. Medium weight for genuine foot-ease. Just the shoe for rough work, for lawn or garden or even for dress wear.

Genuine Goodyear Welt, extra smooth and flexible and the strongest construction known! Flexible grain leather insoles absolutely smooth and free from irritating tacks and stitches. Strong steel shank keeps shoe in shape and prevents sagging. Guaranteed rigid heel counter and leather counter pocket. Rubber heel. Medium wide width. In Black or Tan. Men's Sizes: 6, 6½, 7, 7½, 8, 8½, 9, 9½, 10, 10½, 11 and 12. State size. See How to Measure, Page 2. Rationed, see notice below. Attach Ration Stamp to your order.

### BETTER THAN MANY \$5.00 SHOES

**FARMERS:** Here's a shoe especially constructed for your needs! The uppers are made from a good grade of Re-tan Cowhide Leather, soft and strong for farm use and will resist moisture and barnyard acids better than any other leather.

The Oak Leather soles with full leather mid-soles extending around the heel are pliable for comfort and tough for long wear. Smooth Grain Leather insole gives the shoe a solid foundation. Triple stitched vamps, twill vamp lining, sturdy heel counter and smooth leather counter pocket. Rubber heel. Nailed and sewed construction. A shoe that will fill the bill 100% for those who want maximum wear and comfort at a moderate price. Wide Width. Men's Sizes: 6, 6½, 7, 7½, 8, 8½, 9, 9½, 10, 10½, 11 and 12. See How to Measure, Page 2. Rationed, see Notice below. Attach Ration Stamp to Your Order. State Size.

### DOUBLE SERVICE FIELD SHOE

Here's a "rough and ready" Farm Shoe sturdyly constructed for almost unbelievable service for the money. The one-piece Garrison Backstay reinforces the heavy black, beaver Grain Cowhide Leather uppers adding strength and service to the entire shoe. The heavy composition outsole with thick non-skid Cord tape gives extra long wear before re-soling becomes necessary. Entire sole construction is  $\frac{1}{2}$  inch in thickness. Flexible one-piece insole, drill vamp lining, smooth leather counter pocket, sturdy counters and smooth leather toe cap and leather heels with rubber lift are other features of this great shoe bargain. Wide width. Men's sizes: 6, 6½, 7, 7½, 8, 8½, 9, 9½, 10, 11 and 12. State size. See How to Measure, page 2. Rationed, see notice below. Attach Ration Stamp to your order.

No. 18K45—Black. Pair, Postpaid..... **\$2.89**

### SOFT SMOOTH UPPERS, Resist Acids

Low price and Fine Quality for the money. The extra soft and pliable Black Cowhide Leather uppers and Toe Cap are acid-resisting and built for hard and comfortable outdoor farm and general use. The smooth leather vamp and counter pocket will not wrinkle or curl. One-piece flexible leather insole and sturdy counter. Medium heavy sole construction with full one-piece leather mid-sole and non-skid composition outsole both of which extend around the heel. Gusset tongue keeps out the dirt and dust. Leather heel has rubber lift. Wide width. Men's sizes: 6, 6½, 7, 7½, 8, 8½, 9, 9½, 10, 11 and 12. State size. See How to Measure, page 2. Rationed, see Notice below. # 4 and 5 BUCKLE ARCTICS

NOT  
RATIONED

## HEAVY DUTY ALL RUBBER ARCTICS

Here are the greatest values in Heavy Duty 4 and 5 Buckle all rubber Arctics that I have ever heard of. Improved quality, more durable black watertight rubber uppers and heavy, plain edge corrugated sole for longer service. Nothing equals them for all weather protection. The 5-Buckle Style is full 13 inches high and the 4-Buckle style is 10 inches high. Have unusually elastic vamps that stretch easily and snap back to a snug fit over the instep making it easy to slip on over the most bulky work shoe. Have black foxing and cotton net lining. Wide width. Men's sizes: 6, 7, 8, 9, 10, 11, 12 and 13. State size. To wear over heavy work shoes, order next size larger than shoe. No ration certificate necessary.

No. 16K2028—4-Buckle Style, Postpaid.....\$3.55  
No. 16K2071—5-Buckle Style, Postpaid.....\$4.09

A BARGAIN COUNTER FOR MEN

# WORK SOCKS

NO SEAMS—NO RIDGES

Once more we give you KNOCKOUT BARGAIN PRICES ON GENUINE NELSON ROCKFORD SOCKS. There isn't much I can tell you about Genuine Rockfords if you've ever worn them. I don't need to tell you that they fit better, wear longer and are a lot more comfortable because they are knit without seams or ridges, but I CAN tell you that I do not believe you can buy Genuine Nelson Rockfords, in comparable weight, anywhere else at the low bargain prices at which I am offering them to you. Get real comfort and wear and lots of it from Genuine Rockfords and save money by sending your orders to Jim Brown.

Genuine Rockfords have seamless feet and shaped heels for extra comfort and true-ribbed top with ravel-proof, non-binding welt for extra strength and extra stretch. They are knit to actual sizes: 10, 11, 12 and 13 and are supplied in two weights as listed below.

2 INCH WATERTIGHT LAP JOINT

*Jim Brown's*  
**ARMOR COAT**  
*Slate or Ceramic Surfaced*  
**ASPHALT ROOFING**

**EXTRA HEAVY**  
**EACH ROLL**  
**WEIGHS 90 LBS.**

**\$2 25**  
Roll  
108  
Sq. Ft.

My Armor Coat Asphalt Roofing is the finest roofing of its type produced today. It is an **EXTRA HEAVY WEIGHT**.  
EXTRA SERVICE Roofing—built UP TO A STANDARD and not down to a price! It will improve the appearance and increase the value of your property. I have sold hundreds of thousands of rolls of Armor Coat Roofing and it has always given the best satisfaction.

The backbone of this roofing is a high quality, long fiber rag felt base which is saturated with asphalt, sealed and coated on both sides with hot asphalt. A thick layer of bright, non-fading Crushed Slate or Ceramic Granules that will not wash off or discolor rain water is embedded in the roofing. Resists burning embers, flames and sparks. Armor Coat is listed as Standard by Underwriters' Laboratories, Inc., saving you about 12% on insurance in most localities, as against wood shingles.

**Has a Two-Inch Water-Tight Lap Joint**

Each Roll of Armour Coat is 36 in. wide, 36 ft. long and contains 108 Sq. Ft. and covers 100 Sq. Ft. allowing for two-inch water-tight lap. Easy to apply—no experienced labor required. Can be used on a new roof or over old shingles or composition roofs.

Each Roll weighs 90 pounds. 3 New Brilliant Non-Fading Colors: Red, Green, and Blue-Black. Not to be confused with the old dull shades found on ordinary roofing. More beautiful and just as permanent at no increase in price. Specify color wanted. If no color is specified, WE SHIP GREEN.  $\frac{3}{4}$ -inch nails and cement furnished FREE with each roll. If 1  $\frac{1}{2}$ -inch nails are wanted for laying over shingles, please specify and add 10¢ per roll. Shipped Freight Prepaid on Freight Orders of \$10.00 or More. Cat. No. 3K7—ARMOR COAT—EXTRA HEAVY.

# Roof Saver

## REPAIR ROOFS BEFORE IT'S TOO LATE

When the rain starts dripping through your roof it's TOO LATE to prevent the damage! Stop roof leaks that ruin paint and plaster, spoil grain and fodder, rot out the sheathing and pile up big repair bills in a hurry. Give your old roofs a coat of Jim Brown's famous Super-Grade Roof Saver NOW and Avoid Costly Repairs!

## WATERPROOFS AND PRESERVES YOUR ROOFS

Jim Brown's Super-Grade Roof Saver contains more Asphalt and Long Fibre Asbestos and gives more waterproofing value for your money than any other similar roof coating I know of. It forms a solid, water-proof covering over the entire roof—flows into all the cracks, plugs and seals the seams and nail holes and preserves old, dried out roofs indefinitely. It contains no Tar or other cheap products, will not "run" in summer or crack in winter and will not taint rain water.

## Easy to Apply Right Over Your Old Roofs

Super-Grade Roof Saver can be applied just as it comes from the container. Suitable for Composition, Felt or Gravel Roofs but not recommended for use on wood or asphalt shingles. Requires 1 to 1½ gallons per 100 sq. ft. for smooth surfaced roofs or 3 to 3½ gallons per 100 sq. ft. for gravel or slate-surfaced roofing. For large holes and around flashings use my Plastic Cement listed below before applying Roof Saver.

No. 5K2—Super Grade Roof Saver—Black Only. Freight Prepaid on Freight Orders of \$10.00 or more.

50 Gal. Barrels, per gallon...	41¢
25 to 49 Gallons, per gallon...	51¢

## JIM BROWN'S E-CONO-ME ROOF SAVER

A dependable roof coating similar to my Super-Grade Roof Saver described above. Has slightly less pure asphalt and long asbestos fibre but is superior in quality to ordinary roof paints. Easily and quickly applied with an old broom or my Roofing Brush listed at left. 1½ to 2 gallons per 100 sq. ft. for smooth surfaced roofs or 3½ to 4 gallons per 100 sq. ft. for gravel or slate-surfaced roofing. For large holes and around flashings use my Plastic Cement listed at left before applying Roof-Saver. E-CONO-ME Roof Saver is supplied in 5 Gallon Cans only at a money-saving price. Freight Prepaid on Freight Orders of \$10.00 or more.

No. 5K1—E-CONO-ME ROOF SAVER, 5 Gallon Can. Black only. \$2.50

WITHSTANDS BLAZING SUMMER HEAT

WITHSTANDS HARD, DRIVING RAIN

WITHSTANDS ICE, COLD and SNOW

## HOW TO APPLY ROOF SAVER

Roof Saver should be well stirred before and during application and if too thick may be thinned by heating. Sweep surface clean and apply coating with ordinary paint brush, broom, or Roofing Brush shown at left. Order Plastic Cement, listed at left to seal up large holes, cracks and for use around flashings before applying Roof Saver.

Freight Prepaid on Freight Orders of \$10.00 or more.
